Dates to Remember:

Homecoming
Friday Oct 26th 8 PM

INTRODUCTION

Dear Bothers and Others,

It is my pleasure to bring the Brotherhood Directory to you. Using it is thanks enough.

Overview...

Laid out much like an old Pledge Book, this directory contains a summary of the basic pledgeship details, along with current contact information, mostly confirmed, on the **Brothers of Zeta Lambda Chapter of Alpha Tau Omega**, who attended **Murray State College /University**. It covers the initial period of our chapter's history opening with the Charter Installation Initiates in the spring of 1959 and ends with the 1971 Spring Pledge Class, encompassing the first full cycle of alumni members...literally an Alpha through Omega listing never before attempted as a convenient way to contact each other - coming to you free of charge to help rekindle our one and only brotherhood.

GLAZEBROOK

This compilation of first Brothers represents nearly a **third** of the entire Zeta Lambda 58-year roster. As this disproportionate percentage in the beginning era vividly illustrates, the early period of our history was, indeed, the Golden Age of the fraternity at Murray State. It left a strong foundation to successors.

Except in a few instances (8), a picture stands within each personalized 'card' (98.6%) to remind you of who we are (as we looked then in contrast to the way we appear now). Since a majority of the photos were clipped from the **Murray State Shield**, we are all around 18-22 years old. Today everyone in this directory is at least 65 years old; we are no longer the 'yutes' of yesterday.

Also included in the directory is a full listing of all Zeta Lambda Brothers who unfortunately have passed into **Chapter Eternal**, regardless of which pledge class they were initiated. It is the most complete record of deaths accrued to date. Undoubtedly its swollen breadth will come as a shock since it is twice as large as previous announcements.

Documentation of each departed Brother may come from a variety of sources so confirmed verifications are not consistently uniform throughout. Included in their profile, where available, is a computer link to an obituary for many of our departed Brothers. Otherwise there is a link to either a grave site display, a brief public announcement, or in some cases, conclusive proof is only the fundamental data found in the **Social Security Death Index**. Point is, they are all confirmed.

As a bonus, there is as much history as could be assembled about the legacy fraternities leading up to the formation of Zeta Lambda with as many members of each as could be uncovered. Beginning with the start up of the off-campus **Best Brotherhood** in the spring of 1955, its eventual change over and move to on-campus **Beta Tau Beta** in the spring of 1957, and finally its transition to the short-lived **ATO Club** as a colony created in the fall of 1958 preparing to qualify to join the national association, this 4-year legacy period amounts to only one generation of college life in reality.

All of our Charter Initiate Brothers originally came from one (or more) of these 3 heritage organizations. Since the majority of our founding members either pledged, or pledged with or under, or knew, many of

the young men in the other groups, it seems fitting to include them in the directory purely out of respect for their fraternity lineage. Therefore, this is not an ATO-only document.

The history portion of this document is presented first and is rather lengthy because it incorporates a bit of background data on the era. The only personal stories captured are those of significance relating to the events that led up to the installation of our chapter. If you want to hear many hilarious pledgeship stories, embarrassing tales about roommates, or personal histories of Brothers, call them. I heard plenty of them in my trip to gather the information. That is the sole purpose of the Brotherhood Directory.

Older Brothers are presently dying at an unprecedented alarming rate. Capturing as much of our early history as possible merely seems like the right thing to do before their experiences die with them. Their mutual background characterized our shared beginning and we are forever rooted in its influence.

Thus, this publication is far MORE than a simple alphabetical index of names, it goes outside a strict adherence to a specific time frame, and it is NOT an ATO-only collection of members. Bottom line, this custom-built Brotherhood Directory contains **554** men, **497** of whom are ATO's, including a total of **164** confirmed deaths (**134** ATO's).

To Bind Men Together...

The intent of compiling the Brotherhood Directory is to provide an easy opportunity for us 'older' guys to reconnect with our most treasured Brothers from our cherished past while in college. After all, we met one another during these formative years, we pledged under or with or had conferences with every single Brother during that time, we accepted each other's differences, we shared common experiences, and we stood in front of each other and declared "I love all my Brothers" before leaving any meeting.

Perhaps this directory will make us all a little more active and involved as alumni; we no longer have the excuse of not knowing where anyone is or how to reach out to them.

A number of Brothers in the directory have had a 'Lost' status in official ATO records for several decades. National Headquarters in Indianapolis assisted in supplying a roster of alumni but approximately 60% of the database was missing information (unknown whereabouts), was hopelessly incorrect, or it contained woefully out-of-date locations. Nearly every person in national's database directory had an item of data needing change. There still remains a significant number of later initiated Brothers who are not even on their list. This is particularly dismaying to digest. Basic recordkeeping is not even considered a problem!

Even worse, their **Chapter Eternal** is speciously inaccurate; any listing they received before 2000 (when a software change was made) is totally unconfirmed. There are 9 Brothers they identified as deceased still quite alive and yet the number of Brothers known to have passed away is double. This is atrocious reporting and recordkeeping on everyone's part. We have to do better. I hope this directory is a start.

For this reason, I took a major sidestep with this project. To unearth all unpublished deaths, the entire Zeta Lambda roster is now updated. In doing so, I discovered the information for the succeeding pledge cycles is poorer than ours...full names not entered, lots of blanks for the address line (meaning they never had a valid place of residence recorded), and activation dates that are sometimes years off the mark. This, to me, is an unacceptable and an absolutely astounding, eye-opening revelation.

For the first time in the history of Zeta Lambda having a long list of alumni, we are capable of contacting nearly all Brothers 5 different ways- either via direct mail, telephone, texting, email, or Facebook. That has not always been the case due to money and a lack of a good list. This will ultimately prove to be an invaluable resource in locating about 2 dozen missing Brothers since guys generally keep up somewhat with their pledge class or those in their era (or area), to eventually keep us all in the loop from now on (that is a HOPE), or to contact each other individually on an impromptu basis.

This directory is being printed and mailed to everyone alive on the list. If you want it as a PDF file, let me know and I'll send it to your email so you can store it on a computer or cell phone. If you happen to be in a situation needing to reach an individual, I have everyone listed on my phone and will text or email the information to you quickly.

All I am asking in return from you for the free Brotherhood Directory is to make ONE phone call to ONE Brother. If each of you **390** guys do this, that makes twice as many interactions as it took me to solicit a verification of the information in the first place. That is a fair price to pay, huh?

As for an up-to-date roster, may we never get in a substandard state ever again going forward!

The Process...

As most of you know, contact information was confirmed with a telephone call, a huge undertaking. Leading up to the call was hours of research, hours of manual data entry into the cell phone and this document and entering changes into the 'official' ATO roster. But the delightful hours spent speaking with you made it all worthwhile. In tandem with the fun, there were hours of frustration waiting for some of you to call me back or even answer the phone. In all, this colossal project has been a very rewarding and enriching process for me personally.

Along the way I have been asked several times how I came to find everyone or how I was able to find out so much personal information. That is easy to answer. The first step in starting this project was to compile a list of names. I began by looking in the Shield and found basic info. The bulk of the initial findings to locate everyone came from multiple internet searches...every bit of it is public information; **anyone can find what I found**. Unfortunately, no one has ever tried.

Initially and throughout the tedious process of both producing this directory and updating the roster, I heavily relied on The Shield (all years are available online) for pictures, free web sites (there are several, each with varying degrees of useful information), several old Bugle publications listed online courtesy of **Kirby Rhines** (Beta Alpha '83), obtaining the entire (although incomplete) National Headquarters roster of Zeta Lambda (courtesy of **Aaron Bauer**), a revised roster supplied by **Jeff Taylor** (Alpha Beta '72), the ATO Blast List (courtesy of **Kirby Rhines**), and a very useful disk loaned to me by **Don Fisher** (Mu '65).

I started this project on February 17, 2017. Originally I was only going to look up a few guys who I (we) pledged under. Coming off a really great experience seeing my Pledge Brothers at our 50 Year Reunion the previous June, it became painfully obvious that no one knew where anyone is. After attending my second successive Homecoming in October, I was more convinced we were all 'lost'...at least from each other. The preliminary preparation of simply listing everyone (on my condensed list) and their possible contact information took about 6 weeks. Using full name, including middle name, appropriate suffix,

birth date, and knowing hometown helped filter out a lot of blind explorations. Using a middle name combined with a hometown was particularly useful in finding out if someone is alive or passed away.

By April I started making personal phone calls. It didn't take long to find out that finding Brothers we pledged with or under was nearly everyone's priority, not just mine. I expanded my search to include those who pledged 4 years prior and up to 4 years afterward (two full 'college generations'), making the list go from 1962 through 1970. Again, the same results. I expanded the list again, going from Charter Initiates through the Spring of 1971 (Alpha thru Omega).

Charter Brothers, and their very entertaining stories, convinced me to expand the search to include the legacy fraternities and capture some of their history and members before it became too late. The final expansion, actually a separate project, came with updating the entire roster as a benefit to all alumni.

Once phone call verification started in earnest, I was helped along the way by Brothers. Some knew where a particularly troubling Brother to locate currently lives. I got several (hard to find) cell phone numbers, especially useful since so many have gone to cell only use. There were even a few instances when I was informed that a certain Brother has died, the reason I was having a difficult time locating him. Some conscientious Brothers assisted in locating a few of the really tough whereabouts of the lost. Even though I spent the bulk of the time taking on these projects, this is truly a collaborative effort.

In a final push, I resorted to looking up and confirming most of the remaining roster on two paid internet sites. The addresses listed are probably fairly accurate, however, about 40% of the telephone numbers (there are cell phone numbers for about 65% of the roster) and 60% of email addresses may be suspect. They need confirming just as the Brotherhood Directory required. Also recorded are 75% of the roster's Facebook listing, a very convenient way to find friends to stay in touch or pass along announcements.

All but 5 guys are grateful for this project and look forward to receiving their copy. I am personally disappointed in 20 Brothers who chose not to call me back but it is what it is. I hope it is not due to poor health limitations. In each of these no response instances I have repeatedly called, left messages, heard answering machines where I recognized their voices, and have not received any feedback. They get a copy of this directory, too...the information I publish about them (they are called '**Unresponsive**' under the Authentication box) is unverified but is what is in the public domain. I make no apologies if some of that data are incorrect or missing, especially if the 'no action' was a deliberate decision. This category represents 3.6% of the directory listings. This is fair balance not meant to embarrass the guilty parties - it is just pointing out undeniable facts; they deliberately chose not to participate.

There is a small percentage of guys who never answered their phones (17) and 11 guys who eluded my ability to find a valid phone number. Therefore, the total confirmed is 91% - less than I was shooting to achieve. Under the Authentication box, I have listed them as '**Unverified**' but I am fairly confident most of the information is correct. To these elusive Brothers I issue the warmest of sincere apologies because I was unable to reach you personally. Please contact me with an update after you receive this directory.

A word of caution: I am imperfectly human. If you discover a typo, incorrect information, can fill in some of the missing blanks, or have an update, let me know. I will keep a 'live' version of this directory on my phone at all times and keep a roster document up to date in an on-going fashion.

On A Personal Note...

I got lots of help in this venture.

Instrumental in helping us better understand, and actually see, our shared history is **Riley Emery** (Charter Initiate) who generously supplied copies of the newspaper articles and long forgotten pictures for our enjoyment. Copied from his personal scrapbook, the material has one-of-a kind rarity. Every time you smile or nod your head reading through the next several pages, you will be thanking him.

Likewise, nearly all the early oral history came from **Bill Kaler** (Charter Initiate) and **Riley Emery** who are eyewitness members in each of our early heritage fraternities. Nearly everyone I called who were in the early years filled in the gaps or clarified with some sort of pertinent information. Without their valuable contributions most of the past would remain a murky fog. It was a delight talking to each of you about those early times.

I had a ball researching the early history. Some of the information dug up was unknown at the time and has never come to light since. While I attempted to represent the facts accurately, the tone presenting them and the comments regarding them are entirely mine. If any of my interpretations are incorrect, please accept my apology. I have not had the time or luxury of getting a peer review of this document.

Speaking of time, thanks to my family for understanding how important working on this was to me and allowing me the time to complete it.

As a final tribute, I want to thank each of you for taking the time to speak with me. Unannounced, and to the bulk of you, a complete stranger, you embraced this project with gusto. Some of us spent hours laughing and swapping stories. Along the way I began to feel more connected to Alpha Tau Omega than ever before; it is a privilege to call you my Brother. Getting to know you a little better is a an honor. I am truly proud to be one of you.

In the four years (9 semesters) leading up to our founding, there were lots of ups and downs, requiring adaptation and learning, especially in the last two semesters. Our generation, Baby Boomers, the rest of the 88% in this directory, left a legacy in our 12-year term for the next 46 years of ATO's. They have had periods of difficulty but survived 4 different and distinct generations. The Chapter today reflects a little bit of the inheritance we each left behind in our brief tenure as Tau's at Murray State.

If you read this from stem to stern, I hope you learn some things about Alpha Tau Omega Zeta Lambda not found in history books. When you peruse the directory listings, find a close Brother and call him.

I (sincerely) love and respect all my Brothers,

Steve Farmer (Xi '66)

P.S. I apologize for the tardiness of getting this mailed. I was stalled by THREE different printers for FIVE months until the 4th one stepped up to complete the job. Sorry for the delay.

FIRST FRATERNITIES AT MURRAY

In 1955 there were two national social sororities on campus at Murray. Alpha Sigma Alpha, installed in 1946, and Sigma Sigma Sigma, installed in 1942, and no local (unaffiliated) sorority. No national social fraternities were there. However, there were two very active local social fraternities on campus.

Delta Alpha, originally a quasi-service organization for campus activities, was founded February 3, 1948. **Tau Sigma Tau** was founded November 9, 1950, with Mr. Harry Magee Sparks as its first chapter advisor. They were looking to become affiliated with a national organization by late 1953, requesting permission from the Board of Regents (as you will see later).

Mr. Sparks was a 43-year old associate professor in the Education Department with a masters degree. He was just beginning only his third semester of teaching at the 27-year old institution whose guiding principle was the professional training of teachers. It was his big break in the educational field. By 1952 he was head of the department and became Dr. Sparks in 1954. Ironically, he played a crucial role in us eventually becoming ATO's. He heavily influenced - some would say controlled - fraternity life during his entire 25-year tenure at Murray State. As one Brother succinctly put it, "He and Sparkman were pricks."

Best Brotherhood, an off campus fraternity, was founded March 2, 1955, and existed exactly two years. Formed out of the ashes of Best Brotherhood, **Beta Tau Beta** was founded on campus March 3, 1957.

There were no nationally affiliated fraternities on campus until 1958. The Tau Sigma Tau members became installed as **Pi Kappa Alpha** March 1, 1958, under another chapter advisor, Dean Nash.

Beta Tau Beta changed its name to **Alpha Tau Omega Club** September 22, 1958, and was formed as an ATO colony. There would be no more local social fraternities to emerge on campus for over a decade.

Delta Alpha became **Sigma Chi** April 25, 1959. At the time it was one of the largest fraternities nationally in terms of membership and total number of chapters.

Two Saturday's later **Alpha Tau Omega, Zeta Lambda** was founded by 50 Brothers who came out of the 7-month old ATO Club, some by way of Beta Tau Beta while others went all the way back to 1955 to the formation of Best Brotherhood. Installed **May 9, 1959**, Zeta Lambda became only the second chapter in Kentucky, 50 years behind University of Kentucky, Mu Iota, founded September 11, 1909.

Delta Alpha (ΔA) 02/03/48 (135 Months)	1st	→	Sigma Chi (ΣΧ) 04/25/59	2nd
Tau Sigma Tau (ΤΣΤ) 11/09/50 (88 Months)	2nd	→	Pi Kappa Alpha (ΠΚΑ) 03/01/58	1st
Best Brotherhood (BB) 03/02/55 (24 Months)	3rd	→	Beta Tau Beta (BTB) 03/03/57 (18 Months)	
Going from Best Brotherhood to becoming Zeta Lambda took 49+ months, an equivalent time it takes to graduate. A lot happened in those four brief years to cause the formation of the ATO ΖΑ Chapter. Tau Sigma Tau was not ever successful in luring TKE as an affiliate organization.			Alpha Tau Omega Club (ΑΤΩ Club) 09/22/58 (7 Months)	↓
			Alpha Tau Omega (ΑΤΩ ΖΑ) 05/09/59 (58+ Years)	3rd
			Tau Kappa Epsilon (TKE) 05/22/59 - 1991	4th

— BOARD OF REGENTS —

In succeeding sections, there are copies of several pertinent meeting minutes that were issued by the Board of Regents regarding their decisions related to significant events in our history. Space limitations prohibit displaying a copy all their relative meetings so I will simply provide a random historical sampling of excerpts, reformatted to fit the space available. Reading them provides a better understanding of how troubled the Board has been with fraternities throughout the history of Murray State's existence.

12-15-1931

RESOLUTION

WHEREAS, it is and has been the sincere purpose to maintain and administer this institution in such a manner that young men and young women of moderate means may be provided a thorough college education and receive a cultural training which will materially aid in developing the most splendid citizenship for our Commonwealth, therefore,

BE IT RESOLVED, that the Board of Regents establish as a policy of the Murray State Teachers College that **no fraternity, sorority or other similar student organization be permitted among the students of this institution**, and that in lieu thereof academic societies be encouraged and fostered by the students, faculty and administration of the college in order that the students may receive that training which will best fit them for the responsibilities of life; provided the organization of academic societies, with the constitution and bylaws, must first be approved by the President of the College, and,

BE IT FURTHER RESOLVED, that only circulars, pamphlets or other publications, previously approved by the President of this institution, be countenanced or permitted to be edited, published or distributed by the students, faculty or anyone connected with the institution, in order that every activity may be in harmony with and in support of the approved activities and policies of the institution.

Mrs. Mason seconded the motion for the adoption of the above resolution. The roll was called upon the adoption of this motion with the following result: Mrs. Mason, aye; Mr. Ordway, aye; Mr. Winslow, aye; Mr. Snook, aye.

Obviously, **Delta Alpha** Fraternity slid in under the wire in 1948, founded on the noble purpose of "developing better inter-departmental relations," working with all groups to promote campus activities. The Board considered them as a semi-professional organization overlooking their mostly social status. Why the two sororities were allowed to form is mysteriously missing from Board records.

07-14-1949

Resolution Regarding the Establishment of Fraternities and Clubs Other than Departmental Clubs

President Woods stated to the Board that requests had been received from students for the privilege of organizing a social **fraternity**; and, in this connection, Mr. J. Matt Sparkman, Dean of Students, was called before the Board to participate in the discussion. After giving careful consideration to the students' request and appraising the fraternity and sorority situation as it now exists at Murray State College, the Board of Regents took the following action:

Motion was made by Mr. Springer that the Board go on record, as follows: that any fraternity, sorority or club, other than departmental clubs, now established or to be established on the campus of Murray state College should be of **an honorary or semi-honorary nature** and directly under the control and supervision of the school; that any fraternity or sorority now organized or to be organized should require a minimum academic standing on the part of each charter member and/or initiate of 1.5, this not to become retroactive but to become applicable to present and any newly organized fraternities and sororities; that sponsors or advisers of fraternities and sororities must be employees of the college and approved by the Dean of Students and the President and that the President and Dean of Students should charge any committee which may be in existence or appointed to consider the establishment or operation of fraternities or sororities with the responsibility of reviewing carefully the aims and objectives as well as the needs for such an organization before recommending its establishment; and, further, that the **President and Dean of Students are herewith authorized to establish further rules and regulations** to provide for the constructive and effective operation of fraternities, sororities and/or clubs on the Murray State College campus.

This motion was seconded by Mr. Franklin, and was carried unanimously.

Board of Regents Meeting Minutes

07-18-1949

THE STUDENT BODY

The activities of the student body were carried on effectively by the **Student Organization** under the leadership of the student organization President and through the **Student Council**. In the course of the year, a new **Constitution** was worked out and approved by a faculty committee and by vote of the student body. The purpose of the Student Organization is: To expand and promote interest in student affairs; to provide the means for the clear expression of student opinion and its presentation to the administration; to foster, in every manner possible, activities which will build a rich tradition for Murray State College; **to function in accord with the established policies of the college.**

Three faculty members were appointed to serve as advisers to the Student Organization. Mr. E. B. Howton, Miss Rubie Smith, and Mr. Vernon Anderson served effectively in this capacity during this past year. Provision is made in the new Constitution for the Student Council to recommend names from whom three faculty advisers will be appointed by the President of the college.

The advisers appointed for the coming year are: **Mr. J. Matt Sparkman, Dean of Students, Mr. Harry M. Sparks, Associate Professor, Department of Education,** and Dr. Ella R. Weihing, Associate Professor, Department of Languages and Literature.

Dean of Students: Plans were completed for the employment of a **Dean of Students** who will accept the combined duties formerly assigned to the Dean of Men and the Dean of Women. **Mr. J. Matt Sparkman** was elected to fill this position, and his duties will be to **coordinate the entire program of student activities and to look after the general well-being of our students.**

01-18-1954

Request from Delta Alpha Fraternity

Motion was made by Mr. Franklin that the request of the **Delta Alpha Fraternity** was reviewed with the Board of Regents and that the Board reiterate it's policy which was established a few years ago, that the fraternities and sororities would have to be of a **semi-honorary** nature and that students would be required to have a standing of 1.5 in order to be eligible for membership.

This motion was seconded by Mr. Winslow and carried unanimously.

07-19-1954

Education

Professor **Harry M. Sparks**, Head of the Department of Education, has sponsored, or served as Chapter Adviser to, **Tau Sigma Tau** and, also, has been **Adviser** to the **Student Organization** during the past year.

07-21-1956

All social Activities are coordinated in the office of the **Dean of Students**, who with the Dean of Women and others and work closely with the **Student Organization**.

There are 30 separate clubs or organizations on the campus that are active and work in accordance with the policies of the school. The **Social Committee**, composed of representatives from each club, sorority, fraternity, continues to meet monthly in order to coordinate social functions and to serve as a clearing house for dates and meetings for all clubs on campus.

People often confuse the Dean of Students, Sparkman, an administrator who coordinated events, with Dr. Sparks, the administration's Student Organizations Advisor, totally running the fraternity show. He had the Board of Regents' backing and the student body's blessing to lord over any club overstepping college rules. Sparks had Sparkman to do his bidding as the fraternity 'cop.'

In 1956, with the growing emergence of Best Brotherhood, Sparks saw a three-ring circus in a two-ring tent. Since BB was a private organization, off campus, and not at all involved in routine school activities, Murray State had no binding jurisdiction to control them. Professionally and politically ambitious, Sparks pounced at the first opportunity to get rid of the canker-causing crew creating a sore spot in their idyllic college campus. While he rode the elevator to the top, Best Brotherhood got the shaft. Sparkman pulled the levers.

Generational Perspective of 1955...

From a **traditional family** perspective, a generation is typically described as, "the average period, generally considered to be about thirty years, during which children are born and grow up, become adults, and then begin to have children of their own." In **American society** a generation is commonly viewed through the eyes of observed mass behavior and is popularly seen as meaning "all of the people born and living at about the same time, regarded collectively."

In stark contrast, a 'generation' in **college** ordinarily changes in a 4-year cycle, the 'usual' time it takes to graduate with an undergraduate degree. But it is a rolling 4 years due to the varied number of students entering and leaving school each year for a variety of reasons.

There are six distinct societal generations alive today in America. They are designated in terms we are all familiar in hearing. It may be taken for granted that the exaggerated titles are gross generalizations of large blocks of people, oversimplified by the overzealous, repetitious media proclamations used in news and marketing. In practice, they are better suited to broadly define specific eras in our history, normally periods that pinpoint the onset of landmark events, rather than precisely labeling individuals.

That is what I will try to do here to **lay a foundation for understanding our beginning.**

The entire ATO roster of all the Zeta Lambda Brothers contains members in each of the six commonly recognized societal generations over a nearly completed fifth pledge cycle, each lasting 12 years (Delta ends next Spring 2019). This directory consists primarily of those in only two generations but with a wide gap of cultural differences and parental influences between the early date of 1955 and the end of the first full cycle midway through 1971. Layer in diverse regional norms, disparate economic backgrounds, vastly differing educational preparation, capabilities and interests, and the myriad of personality types and one quickly sees that **Alpha Tau Omega Zeta Lambda is not a homogeneous organization.**

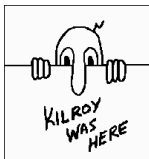

Wilson Hall

The same holds true for most fraternities. Each 'new' generation in Alpha Tau Omega, in effect, begins at the start of every school year but each one is heavily colored by the hue of the membership-at-large of those who are returning. Depending on the success of pledge cycles, the characterization of each year's brotherhood can swing dramatically. The future rests in the hands of the pledges.

It is important for us to broadly understand the life and times of 1955 America in a small Midwestern town at a small college because that is when and where our progenitor fraternity, Best Brotherhood, was formed. What they brought us, the strength of Zeta Lambda that still exists even to today, was a direct result of their place in time and instrumental in our future success.

**"Whenever I think of the past, it brings back so many memories."
~ Steven Wright, Comedian**

Parents Were Major Influence In Mid-'50's Teens...

What was normal in 1955 is a universe away from our present-day world. Kids going to college then had different motivations for getting a degree (especially true based on gender), had parents who survived some very tough and lean times without modern conveniences, and they were beginning to accept that what they accepted growing up was changing rapidly. Contrary to popular belief, they were more prone to conform to expectations than rebel. *Rebel Without A Cause* is a 1955 movie myth.

Even going to college was new. No longer restricted to only the wealthy and privileged, the parental generation embraced the notion of bettering oneself. They supported the goal of their children wanting more than they had, that they wanted to prepare for careers instead of jobs, and they were even okay with their child leaving home to experience life in a different place - like they had done during the war.

The parent's generation, the **GI Generation**, is often referred to as the **Greatest Generation**. Born near the turn of the century through about 1926, they are the children of WWI veterans and fought in WWII. They were young during the Depression (the Great Depression as they called it) which lasted from 1929 to 1939, a significant portion of their formative years. The war (The Big One as they called it) for them officially began in 1941 and ended in 1945, stealing their playful young adulthood.

Their dire 16-year formative period lead them to believe they should behave as strong role models for teamwork, especially within the family, in order to overcome adversity and to progress successfully.

The prosperity they enjoyed after they "saved the world and built a nation" made them assertive and energetic doers, particularly focused on the community. Since the majority lived where they grew up, civic duty, a mandate, meant they voted and stayed informed. They remained steadfast within groups, their church, supported local schools, and were active in local organizations. They openly supported the government and fervently believed it should not be the other way around.

"Pull yourself up by your own bootstraps" was a common expression. Witnessing two wars they were also leery of the motivations of government and critical of its mistakes.

Seeing so much suffering as children and evil and hurt in their war experiences, they had a keen sense of personal morality with a near-absolute set of standards for what they considered right and wrong. They adhered to their convictions and instilled them in their kids. Marriage was for life; divorce and having children out of wedlock were unacceptable. In everyday living, their rigid values were drummed into their children's heads. Any willful violation of one of their tenets was sternly punished.

Overall they were grateful to have jobs and were loyal workers. Dedicating themselves to long-term vocations for the sake of supporting the family, they generally believed in supporting their employer but they also viewed them with a tainted skepticism; they ushered in the radical concept which spawned the birth of labor unions. There was no concept of 'retirement' - you worked until you died or couldn't work.

They were frugal. They avoided debt, they saved, and they paid cash. They preached to their children, "Use it up, fix it up, make it do, or do without." It was the only way to live based on the experience of their young lives. Common sense ruled their lives and being practical dominated every decision.

They saw America changing, and relished in the prosperity, but vividly remembered the days before there was electricity, refrigeration, radio, telephone, television, automobiles for everyone, air flight, or air conditioning. They thought of America's youth as 'spoiled' because they had all these luxuries.

They were brand loyal...a Ford man or Chevy man...staunch Democrat or Republican...preferred a certain brand of automobile tires, cigarettes, or packaged foods. They had vegetable gardens.

Through their sacrifices and hard work they gave their children a much better life than they had growing up. If there was a mantra of that time it just might be: "Do your job...and do it right."

Naturally, parents have the most sway over their own children. Not only do they pass along their genes (nature), they raise them the best way they know how (nurture). At times, as we have all experienced, it becomes a trial and error process. But some legacy gifts to a generation of children are hardwired due to the generation that preceded them.

The Greatest Generation gave the kids attending college in 1955 two life changing contributions to society that would forever alter the way Americans live. The first was not a beloved inheritance but it led to the other...directly affecting colleges such as Murray State. Without the valuable second gift, we might find a much different world today.

Two 'Gifts' That Keep On Giving...

In 1955, all the guys who attended Murray State had one thing in common...registration with their local Draft Board. Since 1863, in order to raise fresh troops for the Union Army, **conscription** in the United States was employed only one time, in 1918 for WWI. In 1940, all males in the age range of 21-45 were required to enroll with their local branch of the **Selective Service System**. Over 50 million men were registered and 10 million of them were drafted during WWII. While the draft stopped after the war, the Selective Service System did not.

The draft was cranked up again in 1948 as a result of the onset and escalation of the **Cold War**, taking guys 19-26 years old for one year. Two years later the **Korean War** draft called up men between the ages of 18-½ to 35 for terms of duty averaging two years (excluding WWII veterans). By the end of the war in 1953, over 1.5 million had been drafted, amounting to over 54% of the armed forces.

Because there are few movies about this war and it was relatively short in duration, it is not thought of as others. But it was a fierce war with brutal battles. There are widely publicized reports of ill-equipped and inadequately trained U.S. military forces who had to fight unit by unit and man by man in nearly every battle situation imaginable and in bitterly cold weather. As many as 40K U.S. soldiers were killed, another 100K wounded, and 7K MIAs. In total more than 5 million people lost their lives, over half of whom were civilians. To the veterans of it, the Korean Conflict is not a 'forgotten war.' Perhaps the most distinctive characteristic of the Korean War generation is their silence.

Why was the Korean War important to Murray State College in 1955? Well, the short answer is the school profited from it.

The **G.I. Bill** was enacted in 1944 with the intent of providing immediate tangible rewards for practically all WWII veterans. It has remained in place ever since. It was made available to all veterans who were on active duty during war years for at least 90 days - combat experience was not a requirement.

Benefits included a one year package of unemployment compensation or a low-interest loan to start a business. Significant in changing the American way of life, it offered low-cost mortgages with zero down payment on home loans but, more importantly, it offered more favorable terms for new construction compared to existing housing. As a result, the G.I. Bill encouraged millions of American families to move out of urban apartments into suburban homes...helping create suburbs.

Of special note to small colleges across the nation, it provided dedicated payments of tuition and living expenses to attend high school, college or vocational/technical school. ..literally going from **Boots to Books**. Recipient veterans do not pay income tax on GI benefits since they are not considered earned income. Approximately 43% of the Korean War veterans took advantage of the G.I. Bill. The military estimated there would be only 7% of veterans utilizing it.

After 1953, large and small colleges throughout the land aggressively targeted Korean War veterans; student populations swelled. In 1955, Murray's student population was the highest it had ever been.

Many of the returning young men left home just out of high school and were unmarried. At last free of the suffocating conformity of their formative years at home, they wanted to enjoy the postwar peace, find a good woman colleges were attracting such as the future teachers, nurses and secretaries...and they wanted to dance. Not the Big Band/Swing stuff they left behind in high school but the exciting new sounds of Rock 'N Roll sweeping the nation!

They wanted a fast car, free time and parties, they wanted a place where they could drink, socialize, spend time with friends, and they wanted **Playboy Magazine**. Colleges offered fun with a future and Uncle Sam picked up the tab for war veterans. Not a bad swap to forget the horror many had recently survived.

Plus, most colleges, including Murray State, had formed **Vets Clubs** attempting to help returning vets transition to civilian/college life.

The G.I. Bill, also known as the G.I. Bill of Rights or Servicemen's Readjustment Act, is but one program of several federal programs aimed at encouraging veterans to seek higher education. Later legislation has made many amendments to the G.I. Bill, extending its benefits, including full disability assistance and eventually offering coverage to all who served in the armed forces.

The G.I. Bill has been heralded as one of the most significant articles of legislation ever produced by the federal government - one that impacted America socially, economically and politically. In 1955, at Murray State College, the program was just starting to come alive as a result of well-heeled (and well-healed) returning Korean War veterans...except for the victims of 'shell shock.'

Veterans are urged to take advantage of regular and special offerings made available through our resources and facilities.

Murray, Kentucky

Murray Men In 1955: Our Forefather's Generation...

Born between 1928 and 1945 the **Silent Generation**, in a way, was just that, silent. Because it is one of the smallest generations in history they are often overlooked, disregarded partly due to the profound influence the next generation, **Baby Boomers**, had on American culture.

With an unheard of 77 million people in it, Boomers, the one most of us in this directory are a part of, made a complete break with their parents' and grandparents' generations. Baby Boomers set a new American social tone whereas the Silent Generation clung to their 'old-fashioned' upbringing. No American President came from the Silent Generation.

The Silent Generation adopted much of their parents' commonly-accepted social values, near-absolute moral truths, and typically "went along to get along," accepting authority as their parents taught them. Disciplined, and self-sacrificing, they tended to be more cautious; they embraced social norms and were quiet, feeling it was socially dangerous to speak out too ardently. Avid readers, especially newspapers, they kept abreast of current events, partly due as well to being the first TV generation.

As young men, they moved into adulthood in relatively prosperous times. They enjoyed a higher rate of employment than the previous generation or the one following. Moving off farms into big cities, they pledged lifelong loyalty to their corporation; once they landed a job they generally kept it for life. In fact, they started the trend of moving to a job. Their generation created suburbs, were the first to move long distances from home for better career opportunities, and the first to travel extensively, mainly due to the rapid influx of automobiles, the advent of interstate highways, and television.

Retirement meant living out one's final days in peace and comfort; they became the richest, most free-spending retirees in history. 'Saving for a rainy day' was instilled in them by their parents and they enjoy the fruits of their lifelong labor now.

All this does not mean they were absolute traditionalists or completely hung on to the past. The initial rumblings of civil rights started with them. Rock 'N Roll became popular because of them. Technology began in its infancy due to them. Going to college became widespread during their young adulthood. Sex became more openly discussed and they had larger families. Women began to work and so did a whole new crop of medicines. Entertainment and clothes became fashionable pastimes.

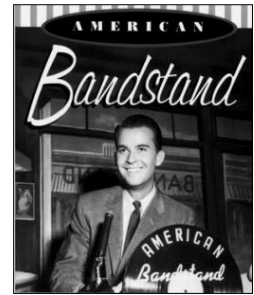

Oh, by the way, pledging a social fraternity became a really cool thing to do as well.

Although Greek-lettered fraternities had been around a long time at colleges and universities across the nation, Murray State resisted accepting them on campus. In the late 40's up through the mid-60's, with the rapid expansion of enrollment of students everywhere, social fraternities became more popular. By the mid-50's society was changing rapidly and so were fraternity groups. No longer satisfied with purely professional organizations and philosophical debates, students sought social outlets and interaction.

The administration and Board of Regents at Murray State saw a ground swell of requests and petitions and were clearly nervous about how to proceed or what to do. The word 'control' appears frequently in their published documents of the era. The initial steps they ultimately okayed treated members of social fraternities much like a high school principle does...only complete utter domination of activities allowed.

Stayin' Alive In '55...

Except to those who lived it, most of this will seem unreal. **Eisenhower** was the President. **Sputnik** was not launched until 1958 so there was no **Space Race** but plenty of people believed in flying saucers and the possibility of Martians. U.S. economy was stable and everyone's standard of living was improving. The older generation was righteously offended by the term **Rock 'N Roll**, believing it was suggestive of raunchy sexual movements. Watching young couples dance to it on **American Bandstand** was all the proof they needed. Life, in general, was pretty casual and carefree otherwise. These were indeed Happy Days...sort of.

Most families considered themselves middle class and tried to emulate the idealized lives as depicted on television in such popular shows as **Leave It To Beaver** and **Father Knows Best** where only minor scrapes occurred. In real life, there was a normal amount of internal strife in the form of arguments, depression, and losses, etc., that average families hid from the world around them. PTSD did not medically exist.

As an undemanding rather stoic generation, they internalized personal emotions because no one knew how to cope with them or knew that it is okay to let them out. This generation of children grew up angry at their own denial of their true selves, yet still felt alienated from their feelings. As emotions became more bottled up, many sought an outlet through some sort of bottle...when one was alone. **Alcoholism and drug abuse** grew rampantly during this time period but it was all behind closed doors.

News was everywhere. The debut of the Mickey Mouse Club and the 'budding' of Annette Funicello. In 1955, when 42-year old **Rosa Parks** refused to give up her bus seat to a white passenger, the incident created a big stir in civil rights. In fact, the most talked about news items were **desegregation...and seat belts**. In 1955, the U.S. Supreme Court ordered lower federal courts to require desegregation "with all deliberate speed" and a new law required that seat belts be installed in all new cars (7.9 million of them). Resistance was in having to pay for them, not in the safety need for wearing them. Murray State desegregated in 1955 without the slightest incident. It was a friendly and accepting place to be.

Families with younger children began to think seriously about driving cross country to vacation in sunny California to visit the newly opened **Disneyland Theme Park**, singing "See The USA In Your Chevrolet" the entire way. Teenagers all wanted the latest craze, a new **pocket transistor radio**. And there were grim concerns about the first **atomic powered generators**. Japan was fresh in their collective memory.

Nobody much talked about the little-known country of **Vietnam** and sending the first advisors over to help train their military in the South. Hell, they had never heard of the place; surely there would not be another war after the Korean Conflict fiasco that had just ended. America was too smart to allow that.

Sidebar: I knew exactly where Vietnam was in 1955. I did the nerdy thing and looked it up. As an eight year old, in the 2nd grade, my **Boy Scout Master** was one of the first to go to 'Nam as an advisor. When the war finally did end in April 1975, I was 28 years old; my first child had just celebrated his 3rd birthday. I was also saddened to hear that **Maj. Billy Joe Williams**, my former Scout Master, died in the fall of **Saigon** rescuing evacuees. He was 40 years old. He is one of five from my small hometown to be killed in Vietnam. We grew up with that war.

Although the first credit card, **Diner's Club**, appeared in 1950 (**American Express** did not come along until 1958), there was essentially no average American family who owned one. Except for a small mortgage with the locally-owned bank and a short-term debt allowed by a few friendly community businesses, everything was cash and carry..."cash on the barrelhead."

With the exception of the **Sears Catalog**, maybe a gas station or two, a car dealership, and perhaps a **Ben Franklin** store or a **Western Auto** store, there were no chain stores widely available, especially in small towns. **McDonald's** only started in 1955 but maybe there was a **Dairy Queen** within driving distance. Most items of daily living were purchased locally from local merchants. Even cities and the suburbs were cram packed with small merchants rather than chains.

Minimum wage was \$1.00/hr but the average wage was nearer to \$2.00/hr. Average household income was around \$4,100/yr, a house cost about \$22,000 (for less than 1,000 sq ft) but the prices in rural areas were much cheaper, and a new car could be had for as little as \$1,900 up to \$2,900 (4 out of 10 paid for in cash); a used car was around \$600. A new TV was around \$100-\$200. A very good baseball glove cost around \$10 but a new top line bike was around \$70! Less than 2% of family homes were air conditioned and very few people had air conditioned cars - it was not even available on most common models.

An average family of four had an average grocery bill of \$10 per week...baked beans 10¢/can, bread 14¢/loaf, potatoes 20¢/3 lb, peanut butter 39¢/jar, lean ground beef 39¢/lb, flour 41¢/5 lb, eggs 57¢/dozen, butter 65¢/lb, milk 82¢/gal, coffee 95¢/lb. A gallon of gas cost 23¢. Average families drove around 10,000 miles a year at a cost of 9¢/mile. Most families had only one car and two drivers; for the first time in history, driving by women became widespread. They did the grocery shopping and cooking and had jobs. Women were typically the bookkeepers of the family, watching the budget closely, believing in, "A penny saved is a penny earned." They raised the kids, identifying themselves as wives and mothers first...discontentedly.

Casual wear became stylish in this age. Marketers began targeting teenagers so there was a shift away from a functional look with drab colors. Corduroy, tight bright sweaters, and cone-shaped bras became popular. Boys liked those changes. Jeans were still considered work clothes and too casual for school or 'dress up,' as were tennis shoes. Tee shirts cost \$1, pants \$3, shirts \$4, shoes \$5, sports coats \$10, and dress suits \$45. Skinny ties were popular, designed to complement men's form fitting tailored clothes.

A postage stamp was 3¢, a bottled Coke 5¢, french fries 10¢, a hamburger 15¢, a milkshake/malt 20¢, a pack of cigarettes or a 45 rpm record 23¢, a movie 50¢, and a 24-pack of beer \$3. No sales tax.

Tuition at Murray State for veterans in the 1955 was about \$50/semester for part-time students and \$110/semester for full-time students. Vets got about \$110/mo to attend Murray. An off campus room could be rented for as little as \$10/mo. Ten years later tuition was not much more.

This year tuition is \$8,340 for in-state students and \$22,728 for out-of-state students. Throw in another \$8,906 for room and board. These hefty prices absolutely pale in comparison to the unholy difference today at Murray State (besides all the new buildings)...**The Hut** is gone.

First Step Of How ATO Came About...

HERITAGE AND LEGACIES

— BEST BROTHERHOOD —

Seven guys in a car. A flashy Cadillac. Saturday night. A chilly February wind blowing. Bored. Nothing much to do. Restless. Looking for a little excitement. Needing to offset a dreary week of attending college classes again. Only weeks away from spending time with family during the holiday break. Campus at Murray State vacant like a ghost town. Tired of going to the same ole haunts in the sleepy little town of Murray. Partial half pint of liquor in one hip pocket, wallet with a little money in the other. Hungry. Laughing with really good friends. Radio blasting out latest Rock 'N Roll. Wishing there some friendly pretty girls around. Cruising. Coming up with a brilliant idea. Going for it.

Usually a scenario such as this is a recipe for getting into trouble...and these guys surely did...and they almost got caught. Instead, these seven friends started a chain of events that night which changed the course of their lives..and ours.

This is the inauspicious backdrop that soon led to the fulfillment of the vision they came up with that night - done literally on the fly - to form their own special club. It would be called **Best Brotherhood**.

It Started Innocently...

Four freshmen, two sophomores, and one junior, all attending Murray State College. Hanging out on a weekend night as they had done countless times. Close friends, these are not your average kids just out of high school. They were older. War veterans, guys with a couple of years work experience, they were of legal age except for one and he could pass. Having made it through the blahs of winter, they were not too keen on the prospect of facing another night of doldrums the nightlife in Murray offered. They wanted to cat around in a Bobby's Cobalt Blue Caddy, meet some girls, dance, grab a burger...have some fun...usual college boy's dreams but trapped inside grown men's minds and bodies.

Someone, nobody remembers who, heard there was a dance that evening in Martin at the college. It was the **Old South Ball**. Great! Girls. Dancing. Food. Already have the booze. Southern Charm was their specialty. Young chicks dig older guys from out of town who have been around. Perfect. Let's go!

Only an hour away, they headed out with high hopes of having a high time. On the way down it was the usual banter guys have with each other. Joking, ribbing, teasing, talking about dancing with the young girls, watching their cone-shaped boobs bounce to the backbeat and eating burgers...certainly nothing heavy or philosophically provoking. Just guy stuff on a joy ride.

In hindsight, they were pretty normal guys. As most of the student body at Murray State, they grew up within about a hour's drive of the campus. Fairly typical, no one outside the norms. But these were not ordinary guys, not that night.

Meet The Magnificent Seven Founders...

It is hard to define brotherhood to someone who has never experienced it. These guys had it. They were not angels or lofty dreamers...they just liked each other.

Bobby Hargis

24 years old, from Murray. Owned a '53 Cadillac. Oldest in the group, Korean War veteran, out of the military less than 8 months. Second semester freshman. Fun-loving daredevil people migrated around. Tall, high school basketball jock. Cocky. Enjoyed teamwork.

Billy Joe Milner

24 years old, from Clinton. Also a Korean War veteran, recently celebrated one-year anniversary of his discharge. Second semester freshman. Lady's man but devoted. A jovial sort of guy with a serious side. Practical thinker with a business head on his shoulders.

Billy Bob Kaler

21 years old, a second semester freshman, also from Clinton. Never met a stranger and had a quick wit about him. Take charge kind of guy. Worked for the state for two years as a surveyor. Dedicated himself to long-term brotherhood when he helped found this group.

Harold Garrison

21 years old, a sophomore, from Hickman. Natural born comedian and kept them all in stitches; had a contagious giggle. Spirited, mischievous but a loveable provocateur. Never backed down from a dare or a fight. Loyal friend. Popularly known as Pres.

Jimmy Ashley

21 years old, from Union City. Already a junior at Murray in 1955, a veteran in another sense. Quieter than the others but affable, well-liked, and loyal to a fault. Good-natured and even-tempered until pushed. Hard-worker type who loved to relax with good friends.

Jimmy Hogan

20 years old, from Fulton, a sophomore. Graduated from Sewanee Military in '53. Was on UK's varsity swim team the previous year. Self-confident with a personality everyone liked. Decisive, strong-willed, bright, competitive, assertive, unpretentious, dedicated to friends.

Sammy Ronk

19 years old, from Alamo, a freshman. Youngest Founder, 5 years younger than Bobby Hargis but they hit it off. Low-key but charismatic. Natural-born leader with the gift of gab in a pinch. Never made promises he couldn't keep. Congenial and smart. Led the fraternity through extraordinary growth period...then saw it suddenly taken away.

These seven guys were in for the ride of their lives that night, literally and figuratively.

Sammy Ronk (left, standing) and **Harold Garrison** (right, standing) share a few laughs as friends play cards. This photograph ironically appears in the **1955 Shield**, in a section highlighting students. It was obviously taken the fall semester before. By the time it came out, these two good ol' buddies had shared in founding their own fraternity. (Note the pin-up girls tacked on the wall.)

Social life at Murray State was heavily regulated and very closely monitored by the administration. While there were several clubs of a 'semi-honorary' nature, purely social fraternities were actually forbidden. The founders of Best Brotherhood were not looking to establish an organization to help them in their younger formative years as most fraternities strive to do. They were already adults.

High-Speed Story Of How The Fateful Night Went Down...

University of Tennessee, Martin Branch (UTMB) was a junior college until 1951. Given its rural location, noted for being particularly scenic and well-landscaped, the primary focus of their academics was on undergraduate studies in education and agriculture. In 1955 there were around 650 students enrolled but it was growing rapidly. Several new buildings had been recently built. Almost all the students lived on campus and they were a tight-knit bunch, almost as tight as their tight bright pullover sweaters.

The Old South Ball was in the old gymnasium. Besides the dance there were various exhibits with lots of booths selling food to raise money for their causes. Half of the school's small student body sported their cone-shaped busts, many majoring in home economics, preparing to be future homemakers. Since the campus was located in an out of the way setting, there were plenty of pretty girls eager to dance and flirt. They were as alluring as the hamburgers the guys craved, wanting to fill their eyes and their belly.

And dance they did. Maybe grandparents were right, dancing is vertical virtual sex. They had been there for about an hour, soaking up the local beauty, when they decided to go to the foyer for refreshments.

Within 5 minutes of entering the foyer, a fight broke out. No one remembers what it was about or who initiated it but it suddenly became a 7-on-200+ matchup...and there were plenty of stout farm boys and unflappable war veterans in the crowd at that. From the gist of it, some UTMB boys did not like having the Murray boys steal their dance partners. Territorial rights, testosterone, and smack talk took over.

There was not a shy guy among the seven, so naturally, they had to defend their honor. In the ensuing scuffle a punch bowl was overturned and cakes went tumbling on the floor amid shrieks and screams of young girls. Hearing the local fuzz had been called in to break them up and cart them off and hopelessly outnumbered, the invading band of tipsy marauders made a prudent decision to beat a hasty retreat.

Within a couple of minutes they were at the Argo-Collier Truck Stop just outside Martin. Bobby pulled in ordering everyone out of the car; he was going back to finish what was started. No amount of protests or pleading would convince him otherwise. He was a veteran and cocky and detested forced retreats.

Standing in the cold, the other near-combatants did not have long to wait for Bobby's return. With his window rolled down he frantically shouted for everyone to get in. As he continued to keep driving they all hopped in, noticing the police car that was giving chase. Apparently students at Martin had given the cops a description of the sleek, not-often-seen Cadillac and they spotted it trying to return to the scene. Little did they know they seriously underestimated the hell-bent-for-leather driver. Besides, Bobby knew that a Cadillac in his hands could beat a beat-up cruiser with a tired old cop any day of the week.

In the Fifties, styling and horsepower sold cars and Cadillac ran some of the classiest ads of the day. With its hallmark tailfins, 331 cubic inch engine, and 4-barrel carburetor Cadillac was considered to be the gold standard of automobiles. It was one of few models on the road that offered air conditioning as an option. Stylish, comfortable, and fast, not everyone could afford its substantial price tag. People stopped and stared when a Caddy drove by. No wonder the kids at Martin recognized the getaway car.

They went the back way out of Martin shooting for TN -118 leading to KY 94 E outside Lynnville then on in to Murray, heading as fast as they could with the cops not far behind in hot pursuit, siren blasting and red lights flashing. Somewhere in the backwoods roads of Tennessee along a dangerous 30-mile stretch of narrow, curvy, hilly country highway, hitting speeds of over 100 miles per hour, Bobby was finally able to shake off the cops. There would be no arrests for disorderly conduct, intoxication, reckless driving, or speeding made by local Martin law enforcement this evening. Certainly not from a bald country rube in a beat up cruiser and sporting a baton in his service belt, a bulging beer belly, a badge, and no balls.

Laughing and hooting over escaping all the perils they felt united. This small band of social renegades was jubilant over not being clobbered or nabbed that night, free to cruise again and create more lasting memories together. The great escape would forever be burned in their memories, a signature event of shared experience that cemented their link to each other. Little did they know, it also marked a turning point in Murray State history...something nobody foresaw coming.

Before reaching State Line Road that separates Kentucky and Tennessee, someone in that classy Cadillac, again, no one remembers precisely who, suggested they should form their own club since they were already so tightly bound together as close friends. Excitedly they all jumped at the novel notion. It would make college life so much sweeter, giving them something to do on boring weekends.

By the time they reached Lynnville, marking two-thirds of the way back home to Murray on **KY 94 E**, they were already formulating plans. That night, this very close band of seven nearly beat up, near-felons became inseparable suptuplet brothers forevermore, the original **Founders of Best Brotherhood**.

Bill Kaler became an ATO as did 6 others who later pledged Best Brotherhood. Five of the other original Founding Members of BB became Honorary ATO's...only **Jimmy Ashley** still remains unrecognized, largely because no one knew where he ended up. It is high time we honor him. Jim is a truly nice guy, humble about his part in the crazy notion of 7 guys on a joy ride that ultimately led directly to our founding. **This is my official nomination of him.**

The Good, The Bad, And The Ugly...

By late February everything was in place and 8 other friends were recruited and ready to join in to help start this new off-campus fraternity. The spring semester in 1955 started on January 30th, a late date. Officially established March 2, 1955, the first BB meetings were held wherever they could find available free space (free as in costing nothing)...in a friend's home...a storage building...it made no difference.

The first small meeting was held in the home of Bobby Hargis. His dad ran a tire recapping place and owned an old abandoned house behind it so they met there for a while, borrowing chairs from a nearby funeral home. For projects they used Pete Waldrop's father's tobacco barn located just outside Murray going toward Kentucky Lake. Later, they sat up headquarters in an old, dirty, active storage room over Rudy's Restaurant, a popular downtown eatery located on the courthouse square.

It is unclear how the name of the fraternity originated but given its heavy veteran influence and their propensity to call their military comrades 'brothers' and describe their common bond as a 'brotherhood' it makes sense to assume they chose this title instead of selecting a Greek-lettered one. That's what the snooty college boys did. They were different. Their brotherhood started with a fight and a high-speed car chase. There were no lofty platitudes designed to disguise their true social intent from nose-y college administrators - they were just brothers, guys who wanted to have a good time with each other.

Starting as very close friends they were stone cold serious that only guys with whom they could form lasting bonds would become future members.

To be fair, the early reputation of Best Brotherhood was not exactly good. Students were beginning to hear about rowdy exploits; many considered them a bawdy bunch of hard-drinking veterans who only got together to party. Not being an on-campus group, they did not have to adhere to nor abide by any rules set by the college. Their group did not have to conform to conservative social norms rigidly stuck to by the other two fraternities to be popular and accepted. While not wholly true, it was not totally false.

In reality, within the original founding members, there were only two veterans. The new fraternity did, however, attract older students at first, probably as a result of being mostly older themselves. As for being nonconformists? Without a doubt.

They were not rebelling against the other fraternities or even the administration, not at all. They were simply not founded on traditional principles and did not follow the campus-based customary practice.

They were not unaware of their less than pristine reputation. Shortly after they were up and running they started to work diligently to become a 'legitimate' fraternity at Murray State. They continued to see themselves as different but they wanted to be included in the growing social life blossoming on campus.

They formed friendly relationships with the other two social fraternities and two social sororities. They participated with them in several 'for-fun' athletic competitions and even shared in mutually sponsored dances. Instituting a newsworthy "**Operation Goodwill**" program with its members, they were actually striving to do just that. Students started making note of them and there was a buzz about campus about Best Brotherhood.

The Board of Regents and college administrators heard reports, too. But what could they do, their hands were tied. Best Brotherhood was off campus, out of their jurisdiction. BB did not even attempt to join in on school sponsored activities. As a 'private' fraternity (club), the Board could not sanction or guide their pursuits. They had no binding authority to reprimand group behavior or punish individual offenders.

For all the positive legacies Best Brotherhood left us, its founding represented a nontraditional voluntary circumvention of the typical practice of aligning with a college to forge an active school affiliation. They may have inadvertently created within the administration a lasting poor impression that would exist for years to come.

There are documented instances of the Board of Regents displaying prejudice, playing favorites, using political power, and making promises they never intended to keep or did not know how to keep. The fraternity world was about to change rapidly and the majority of the Board had never been in one. Put mildly, they did not understand Greek life so they resisted embracing it. In particular, they harbored a negative grudge against Best Brotherhood and seized the first opportunity they could to eliminate them.

In the interim, Best Brotherhood thrived. They recruited very well; they became known as a great group of guys, fun to be around and more mature than the average fraternity fellow on campus. By the time 1956 ended they had grown from its original size of 15 founding members to nearly 60 active initiates.

Unfortunately, 1956 capped the beginning of the end for the fraternity. To state their eventual demise in military terms, it started with a Homecoming suicide mission...hilarious initially but ultimately proving fatal.

It was a harmless prank in some respects. Murray State was begging for float entries. There were no rules that said they actually had to be constructed by the organization, made of any specific materials like in the Rose Bowl Parade, or that they even had to be good. Nobody went over each float plan prior to the parade or checked in during their building of them. "Tell us you will have one and you are in the parade" was pretty much the sum total of verification. The TST float looks like a giant cone-shaped bra, the silly boobs! Hard to imagine what all the losing floats looked like. The winning float was GREAT!

This crappy flying saucer made by Tau Sigma Tau came in third in the float competition in the 1956 Homecoming.

The Best Brotherhood float stole the parade! Rightly so. Best Brotherhood stole the float!

Sarah Ward, author of the article below, was a pretty staff writer for the campus newspaper *The College News*. From Paducah, a Cheerleader Captain, Tri Sig, VP Home Economics Club, Shield Queen Candidate, future Miss Murray State, Second Battalion Sponsor of R.O.T.C., Campus Favorite, in Who's Who...very popular young lady.

Newest College Group Not Yet Recognized

By Sarah Ward

In various, mostly indirect, ways this campus has been hearing of the Best Brotherhood, or the BB's, since early last spring. As yet though, the entire campus has not been told the story of the beginning, the purposes, or the progress of this organization.

It began last March when a group of 15 friends, independents, decided they would like to plan social activities (specifically, a hamburger supper, possibly dances, parties, etc.) for themselves and their dates.

They realized that projects like these were impossible without organization. So, with the purpose of providing themselves with better recreation, these friends formed, on March 2, 1955, the organization, which they named Best Brotherhood. They collected social fees and began their schedule of activities (with, as a matter of fact, a hamburger supper).

Seven Were Founders

According to an agreement among themselves seven of the boys became the founders of the organization, and the remaining eight composed the first "acquaintanceship class."

The three returning founders are Sammy Ronk, this year's president from Alamo, Tenn.; Bill Kaler, Clinton; and Harold Garrison, Hickman. Four of the founders, Jim Hogan, last year's president, from Fulton; Bill Milner, Clinton; Bob Hargas, Murray; and Jim Ashley, Union City, Tenn., did not return to school this fall.

The first acquaintanceship class consisted of Gene Barlow, Mayfield; Billy West, Elkton; Buddy Poe, Sharp; Jim Talbot, Bardstown; Bobby Waller, Louisville; Bill Gardner, Smithland; Joe Carr, formerly of Paducah; and Jim Solomon, Benton.

Not Campus Organization

Best Brotherhood does not meet on the campus, nor have they, as a group, participated in campus activities other than athletic activities and the Homecoming parade, but BB's, individually, back campus projects with great enthusiasm.

The Best Brotherhood meets weekly, in a house downtown, provided them by a friend of the organization.

Since the beginning, when the org meant only "fun with friends," the outlook of the mem-

berhood is now a serious matter to its members, with the stress now being placed on the "brotherhood" part of the title.

Best Brotherhood Is Purpose

According to BB spokesman Gene Barlow, the only purpose of BB is to build better brotherhood. "We have no desire for campus control, and we are interested in goodwill between fraternities," said spokesman Barlow.

BB has two inductions of members yearly. They have chosen to call their classes of prospective members "acquaintanceship classes," because their methods are different from those of the usual pledge classes.

Operation Goodwill

Selection and execution of an "Operation Goodwill" is the project of each acquaintanceship class. For example, the present acquaintanceship class, together with active BB's is renovating the Calloway county farm.

The boys, who have the financial co-operation of Calloway county, are donating three hours each, per week, or 75 man hours, to the completion of this project.

"I have never seen boys work so well together of their own choice, and accomplish so much as these boys did Saturday," said Barlow.

As in all things there must be a little foolishness, BB's have theirs in an egg-flour battle, actives against new members. This "battle" which terminates the acquaintanceship period is held at the lake for the sake of convenience, where a quick dip washes away "battle scars."

Twenty-two Prospectives

At the present BB has 22 prospective members, who are in the acquaintanceship period. Tentative plans are for a combined pledge dance with Tau Sigma Tau, MSC social fraternity, stated Barlow.

Would Best Brotherhood like to be recognized as a campus organization, assuming the privileges and rules of campus organizations?

The answer came from spokesman Barlow in one simple definite word, "Yes."

That's it. That's what Best Brotherhood is—its beginning, its operations, and its aspirations—all of which started from the desire of a few friends for a simple hamburger supper.

Best Brotherhood truly lived what caused them to form their own fraternity in the first place...they enjoyed themselves and they took care of each other as brothers.

Although they established a 'normal' pledgeship program involving personal servitude and minor harassment, they also used the time to get to know each other and to bond. Not only did the active chapter pick an Ideal Pledge, the pledges picked a "Chicken Active," a dubious award going to the guy who was the roughest on them for no valid reason.

"A Wonderful Girl
Like You Deserves
A Dinner At
RUDY'S!"

RUDY'S RESTAURANT
Downtown Murray

BB finally settled on a permanent meeting room located over the well-known downtown hangout, Rudy's Restaurant. Located on the Courthouse Square, it was locally popular for its breakfast menu with bottomless cups of coffee and home cooked meals. Naturally, they served great hamburgers. It was from here that BB launched their greatest brainchild...and here where they had to disband. Rudy's survived; Best Brotherhood did not. The members, tho, didn't go out of business.

Starting with 15 original founders, Best Brotherhood rapidly ballooned to just under 60 members by 1956. Records of all the known brothers do not exist. This listing captures around 55% of them.

The Great BB '56 Homecoming Float Caper

Tail end of the sporty new '56 Chevy loaned by Taylor Chevrolet.

The winning float stood proudly in Cutchin Stadium for all to admire.

The float made by Tau Sigma Tau, the crappy cone flying saucer, won third.

The Raiders beat the experienced Thoroughbreds by a 33-28 score in a see-saw matchup.

The community of **Hickman, KY**, is a Mississippi River town about 60 miles from Murray. It was named in 1837, incorporated in 1841, and became the county seat of Fulton County when it was formed in 1845. With a population of around 2,000 in town (about the same size as Murray State College in 1956) and another 10,000 residents living in the rural portions, they were planning a big gala sometime during the late Fall to commemorate their proud 120-year history. As part of the upcoming festivities, a big parade was scheduled. For such a significant event, elaborate period floats, symbolic of the bygone founding era, were being created by professional designers and were well under construction, securely secluded in barns around the area.

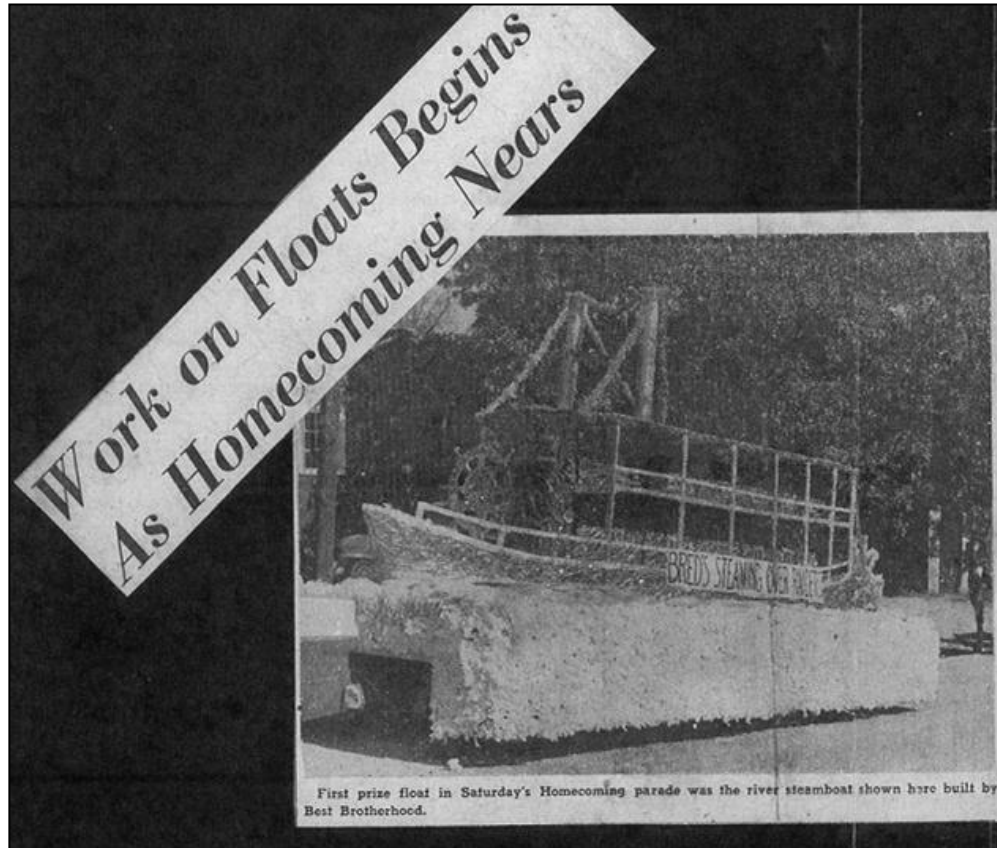

Murray State's **Homecoming** was scheduled for October 28th. Well into its 4th semester as a newly formed fraternity, Best Brotherhood had no float entry to compete with the other 21 organizations in the annual Saturday morning parade. But one of the members knew where one of the floats in Hickman was housed since he was from there.

In the dead of night, with a farm wagon that fishtailed with only the slightest of steering wheel or speed fluctuations, the magnificent float mysteriously found its way, after 3 hours, into the friendly confines of Mr. Waldrop's tobacco warehouse in Murray. It was a beautiful steamboat replica. Rivaling the fancy paddle wheelers found on the Mississippi River during the nineteenth century, it was a grand float befitting the grandeur of the age. It was a striking sternwheeler intricate in detail, and quite advanced in both concept and assembly. The BB's worked feverishly to add a skirt made of chicken wire stuffed with toilet paper, crafted signs, and even found a willing local young boy to portray a riverboat captain, dressed in all white to the nines, to stand behind the glittering boat wheel placed conspicuously at the bow. It did not take much to beat the other entries but this float was a standout in its own right.

It was a perfect Fall day. Large clumps of people gathered all along the long parade route. They cheered and applauded the extraordinary float; it was a crowd-pleaser. The judges liked it, too. Best Brotherhood's steamboat WON FIRST PRIZE! Deemed the best entry, it was so well received two pictures of it were prominently featured in the **1956 AND 1957 Shields** (Page 24 and above, respectively) and another shown in a newspaper article (on next page).

Public accolades and publicity probably lead to the discovery of BB's little creative secret. We can also point to this funny incident as a pivotal point in the second step toward becoming Zeta Lambda ATO's.

A hand-lettered banner reading **Breds Steaming Over Raiders** was the theme of the Best Brotherhood Homecoming float. The Blue Raiders of Middle Tennessee State College, close to the same size as Murray State, was a rivalry game in 1956. Estimated attendance for the game was 5,000; the stands in tiny Cutchin Stadium were full. The float was seen by all - less than 60 guys were the only ones aware of its true clandestine origin. Best Brotherhood's gloating would not last much longer.

Dr. Harry M. Sparks, hailing from eastern Kentucky, by 1957 had already been a high school teacher and coach, a Navy veteran, a high school principal, a college professor, and was the Head of the Education Department at Murray. The college was created as **Murray State Normal School** to address a growing demand for professional teachers so he essentially held one of the most important positions on campus. He would become the university's fifth president. He had been the sponsor of **Tau Sigma Tau** for 7 years.

Early in 1957, as the Advisor to the Student Organization, Dr. Sparks delivered through his messenger, **Dean Sparkman**, an ultimatum to Best Brotherhood - an offer the fraternity could not refuse. Either they would voluntarily agree to disband and move on campus, under the direct control of the school, or ALL social sororities and fraternities were to be barred from existence. Livid over the 'borrowed' float incident the two henchmen had put up with as many reports of 'shenanigans' as they, the college President, and the Board of Regents could tolerate. Once Best Brotherhood crossed the line, participating in the Homecoming Parade, they fell under school rule. It is a wonder they were not all expelled.

Part of the inducement to accept the conditional terms, a non-negotiation plan, the new fraternity would receive their own private fraternity room, along with Tau Sigma Tau and Delta Alpha. Located in the dank basement of Wilson Hall, under the former old gymnasium, the long abandoned shower rooms eventually became the **Pike Room**, the **Sigma Chi Room**, and the **ATO Room**.

The **1957 Shield** was dedicated to Dr. Sparks as a "friend to all." He was a likable sort of fellow. Dean Sparkman, warm hearted to individual students, was cold-hearted when it came to fraternities. Taming the beasts, especially the troubling Best Brotherhood, undoubtedly led to them being lauded within the uptight ranks of the administration for their effective controlling feats.

In 1957, Dr. Sparks resigned as the sponsor of Tau Sigma Tau. Despite all his lofty positions, prestigious awards, professional notoriety, and insider help, he never was made an Honorary Pike. The inside story of why is unknown.

Second Step Of How ATO Came About...

———— BETA TAU BETA ————

Before the Great Float Caper there was a growing consensus within the ranks of Best Brotherhood to move on campus. It would afford them better logistical accommodations to conduct meetings since most of the brothers did not have cars...and they were as large as the other two fraternities so several brothers had to hitch rides to make them. More importantly, they would become more accepted if they were to relocate. By moving, they would be closer to the action to recruit and could start participating in other high profile campus events other than homecoming. Of course, the idea was to transfer 'as is,' as they presently existed, not as a new organization. It was not meant to be.

The terms presented to BB members were harsh and retroactive. Embarrassed over the 'temporarily commandeered' float winning the Homecoming Parade, the college wanted the name Best Brotherhood gone. They would have to come on campus under another name to disassociate themselves from the tarnished connection. Adherence to all college rules regarding fraternities was mandatory. This meant that every member must have at least a 1.5 GPA in a 3.0 grading system (a C average). If BB elected to remain off campus, out of the administration's control, then all fraternities and sororities were going to be banned.

Not wanting the stigma of ruining fraternity/sorority life at Murray State was the clincher. Otherwise there was still a heavy price they must pay. Of the nearly 60 brothers of BB, close to two-thirds of them did not have the grades; when Best Brotherhood disbanded and became something else, these guys were not going to be allowed to join in. In essence they were being kicked out of fraternity life. The school certainly got its pound of flesh; **they got a steamrolled vote over a stolen steamboat float.**

In a last act of defiance, Best Brotherhood made two amusing decisions. First, they elected to rename themselves Beta Tau Beta, retaining as much of BB as they could. It was their little secret, more of an emotional resistance than an open act of insubordination.

Secondly, the date they converted over to the new name (and thus lose 2/3's of their membership) could only take place on the day AFTER the second anniversary of Best Brotherhood 's founding, a smug bit of information only insiders recognized. There must have been plenty of hangovers on March the 3rd, some by new BTB's and others ex-BB's.

Unfortunately, tight records of all Best Brotherhood members and all who went over to Beta Tau Beta are lost to the ages. It can be assumed that by the time the 1958 Shield came out that many of those posing as BTB brothers came from BB. But not all did.

You may wonder why more BB brothers did not become ATO's. That is a fair question to ask. Records cannot confirm all this but a portion graduated before they disbanded; their members were older than most college groups. Some guys did not return to school; a normal attrition rate can be assumed. Some graduated as BTB members not ever getting the opportunity to become ATO's.

Beta Tau Beta (March 3, 1957)

Membership From 1958 Shield

The membership roster as presented in the 1958 Shield consisted of a few former Best Brotherhood guys and the Spring and Fall Pledge Classes of 1957. Obviously it is minus anyone who graduated or those not returning to school. Except for some jocks it is unknown if there were some brothers who did not show up to have their picture taken but in those days it was an uncommon practice not to do so.

A **Maltese Cross** preceding a name indicates becoming an ATO whereas a small **Christian Cross** behind it means deceased. An **X** means they were rushed but did not pledge. A **?** means unknown.

✠ Dickie A. Hack †	Joseph W. Lukitsch †	Richard G. Wheeler, Sr. †
Kenneth H. Hamilton †	✠ Jerry W. McConnell †	✠ Robert G. Wilson

What seems odd is there are only 24 Beta Tau Beta brothers pictured in 1958. The 1957 Spring Pledge Class was large; they may have installed as many as 21 new brothers. The Fall Pledge Class was small (most were) but another 7 brothers were installed. You will note a few names in the charts that were not printed in the newspaper clippings. They were jocks, allowed to join without formal pledging.

When you tally all the new Beta Tau Beta brothers resulting from the chapter's three (only) semesters of rushing and pledgeships, they account as the source for 48% of our ATO Charter Initiates. Former BTB brothers had a profound influence on our beginning in much the same way as Best Brotherhood did on them. It is the cycle of fraternity life when it changes every couple of years.

To the majority of us, there are a lot of names we do not recognize. For our ATO Brothers who pledged them, pledged with them, or pledged under them, they are as important to their fond memories of the past as what your experiences were. I have spoken with most of these BTB members and they are as excited to get this directory as all the rest.

Beta Tau Installs 27 New Pledges For Spring Rush

Beta Tau Beta Fraternity formally installed twenty-seven pledges Friday, Feb. 28, in the fraternity room in Wilson hall.

Pledging for nine weeks will be Ben Butler, Mayfield; David Lockhart; Preston Bridges, Cadiz; John Daniel, Charleston, Mo.; Bill Dunning, Crofton; Bill Hofee, Fairfield, Ill.; Jim Bell, Paducah; Ed Brooks, Henderson; Ray Holier, Lake Worth, Fla.; Steve Harden, Starke, Fla.; Bill Gregory, Marion; Dick Wheeler, Fairfield, Ill.; Bill Bondurant, Fulton; Dale Breeden, Fulton; Paul Davis, Fulton; Howard Linder, Long Beach, N. J.; Norman Black, Farmington, Mo.; L. K. Shields; James Hall, South Fulton, Tenn.; John Randolph, Cadiz; Jerry Baldwin, Evansville, Ind.; Bob Hager, Farmington, Mo.; Tom Spelman, Indianapolis; Bill Schade, Detroit, Mich.; Johnny Belew, Trenton, Tenn.; George Karnavas, LaPorte, Ind.; Dan Matthews, South Bend, Ind.

Twenty Pledges Will Be Installed By Beta Tau Beta

Twenty pledges will be installed into Beta Tau Beta social fraternity Saturday night, April 26 at 5 p. m.

To be installed after nine weeks of pledgeship are Ben Butler, Mayfield; David Lockhart, Mayfield; Preston Bridges, Cadiz; John Daniel, Charleston, Mo.; Bill Dunning, Crofton; Bill Hofee, Fairfield, Ill.; Jim Bell, Paducah; Ed Brooks, Henderson; Steve Harden, Starke, Fla.; Bill Gregory, Marion; Dale Breeden, Fulton; Paul Davis, Fulton; Howard Linder, Long Beach, N. J.; Norman Black, Farmington, Mo.; John Randolph, Cadiz; Jerry Baldwin, Evansville, Ind.; Tom Spelman, Indianapolis; Bill Schade, Detroit, Mich.; Johnny Belew, Trenton, Tenn.

Comprised of some former BB brothers, Beta Tau Beta rushed for new pledges as they had previously done - aggressively and with excellent profiling. They were looking for worthy brothers, not big numbers, and they got both.

Starting with around only a couple of dozen members, they quickly grew their size. In the first pledge class they nearly doubled their ranks when installed. But the news articles are confusing; the listed names and numbers do not work out.

Some of the names in the article on the far left were not actually pledges; it is a list of guys they rushed. The article on the right omits a few names of guys who did pledge and were installed but it lists a couple who were not. Count the names and you find 19 listed; the headline says 20. Near as I can tell, there were actually 23 pledges and a total of 21 who went active.

The new Beta Tau Beta brothers stayed true to their calling as former Best Brotherhood members. Their commitment to brotherhood was just as strong, their commitment to the school grew and to the community remained steadfast. They rapidly created themselves as the hot new social frat to join and were very successful in their brief existence on campus. The administration's devious plan to drum them out of the 'legitimate' fraternity ranks ('semi-honorary') completely backfired.

Listed Pledges (Fall '57)

BETA TAU BETA INITIATES SEVEN PLEDGES OCT. 14
Beta Tau Beta fraternity initiated seven pledges, Oct. 14.
Pledgers are Don Asmus, La-Port, Ind.; John Baggett, Paducah; Johnny Mitchell, Princeton; Jerry McConnell, Marion; Sam Lender, Hopkinsville; J. D. Pigue, Fulton; Bob Wilson, Murray.

As we easily recognize, in those days the Fall Pledge Classes were typically smaller. Nonetheless, Beta Tau Beta continued to reel in men of great character. Little did they know at the time but in one year they would go through yet another name change. This time around it would not adversely affect them. There were some great men in this small pledge class who became beloved ATO's. We owe a debt of gratitude to the excellent job BTB did in rushing Murray's finest in their brief time on campus.

Read the names closely and you will see many future ATO Charter Initiates originally came out of the Beta Tau Beta fraternity. BTB continued to carry the torch lit by BB and made it glow even brighter.

Despite the obvious plan to severely restrict, or even eliminate, any remnants of Best Brotherhood, the legacy they created lived on in the fabric that the Beta Tau Beta's wove. Instead of folding under the stifling pressure of administrative oversight and their prying eyes or slowly fading away unable to meet the minimum standards of the omnipresent fraternity rules, they flourished.

As originally wished, they were active participants in all campus activities and enjoyed a very positive reputation among the student body. Because they were required to change their name, there was no residual carryover for the tainted reputation the BB's originally acquired. And they were just great guys.

One significant shift came with the other two social fraternities. Instead of friendly games and athletic contests, or co-sponsorship of dances, there was a raging competitiveness. BB was not seen as a threat. The Beta Tau Beta's were regarded as rivals. Throw in the inescapable fact that they each had their own fraternity room, in the same place making them close neighbors, only added fuel to the fire.

Way to go Murray State. You put them on the map, under your thumb, intending to squash them like a bug. Instead, they not only survived, they thrived. Prospering during their short tenure, brotherhood in the basement of Wilson Hall basically overcame the resolve of the Good Old Boys occupying the upper chambers in the floors above them. That was probably not the plan but it is what happened.

As a final note, because they had an equal share of fraternity exposure in the 1958 Shield and the old newspaper clippings were available, the roster for Beta Tau Beta is more complete than it is for the BB's. All of our ATO Brothers who came out of BTB are known but there still may be some missing members of BTB based on what I was able to tease out of available data.

The Spring of 1958 would see a major shakeup in all the fraternities at Murray State. It would be the last Spring Beta Tau Beta would see.

Third Step Of How ATO Came About...

— ALPHA TAU OMEGA CLUB —

Misconceptions...

Many perhaps view the Alpha Tau Omega Club as a placeholder organization, functioning merely as the interloper fraternity between the end of Beta Tau Beta and the beginning of Alpha Tau Omega. Existing for only 32 weeks, it is broadly regarded simply as the temporary "waiting-to-go-national" group if they are thought of at all. A common belief by Brothers who pledged later is that the ATO Club was formed after Beta Tau Beta was asked by the national ATO organization to join them. Both perceptions of this league of legends could not be further from the truth.

Viewed solely in this way, that would make ATO Club appear as a rather passive bunch of guys, stalling for time until they could be installed in a 'real' fraternity. In reality, they were quite the opposite - and the time was much more than a transition period - ATO Club went through a pledgship of sorts.

Think about it in hindsight. Best Brotherhood enjoyed a very tight brotherhood, their *raison d'être* really. They were aggressive, smart recruiters with a high visibility around campus. Notwithstanding an abrupt ousting, they were successful. Most new groups eventually fail when the original visionaries are gone. When they (forcibly) became members of Beta Tau Beta these traditions came along with them ; they prospered and even grew. Why, then, would the ATO Club membership not follow suit? It's mostly the same guys and they recruited like-minded undergraduates. The name change helped them.

At a time when the other two fraternities were touting affiliations with a national organization it was smart marketing to adopt the name Alpha Tau Omega to attract new pledges. In terms of competing with the others it evened the field. Part of the misnomer of the definite affiliation to ATO within a few years was in using the name 'Club.' Somehow in the eyes of many this lessens the significant role they actually played in getting Zeta Lambda installed.

It diminishes their importance in our history to believe the ATO Club's primary purpose was purely to populate the pending new national fraternity. Likewise, it completely ignores the real reason of why they formed.

To make matters worse, there are few Brothers who ever knew the actual story of how they came about. Only a handful know there is one Brother who should be given the absolute sole credit for singlehandedly making it happen with the help of two others. He is the reason we call ourselves ATO's.

The story of the creation of ATO Club is epic. Every Brother from 1959 to present should know it as well as they have memorized May 9, 1959. We should all appreciate what they accomplished in their short stint at Murray State. The deck was stacked against them from the very start.

Beginning Of The End...

The saga begins with an unknown and possible shady dealings behind the scene by the administration which resulted in causing Beta Tau Beta to be at a distinct disadvantage. It appears that there was an orchestrated effort to support Tau Sigma Tau and Delta Alpha and leave Beta Tau Beta out of the loop.

What is not recorded for certain is exactly how many pledges the BTB's took in the Spring of 1958; it is usually the most fruitful semester. Given the way the numbers work out for the one presentation of the ATO Club in the 1959 Shield, it was likely a very small class. A fair estimate is that 24 BTB's ended up in the ATO Club; all of them would become Charter Initiates.

Although this is about the same number of brothers they had when they first formed, it is important to remind you that this is now the third year out from the founding of BB. There are at least 8 known BTB brothers documented as graduated, around 1/3 of their original membership. Attrition takes its toll even with successfully large pledge classes.

But for BTB the winds of change would not stop blowing. There is two huge factors as to why Beta Tau Beta would not see another semester as a freestanding local social fraternity. There can be no doubt it was planned by the administration to ignore them or that a brave effort led them to becoming a colony.

Eye-Popping Background Story...

The plot to undermine Beta Tau Beta by Murray State's administration has never been revealed. The following account is pieced together from published documents existing now, not then.

Permitting Social Fraternities to Affiliate with National Fraternities

For some years there have been local social fraternities on the campus of Murray State College. The officers and advisers of the local fraternities have requested that the local fraternities be permitted to affiliate with national fraternities. After conferences with Dean Nash and Dean Sparkman, I recommend that the privilege to petition a national fraternity if the local fraternity so desires be permitted and approved by the Board.

The fraternity world at Murray State was in for a big shakeup in 1958 and extending into 1959. It is not known how long there were rumors and rumblings about it, but on March 1, 1958, the Tau Sigma Tau fraternity room door was changed to **Pi Kappa Alpha**.

They were officially sanctioned by the Board of Regents on April 25, 1958, **55 days later**, as seen in the meeting minutes above. The approval was for all fraternities. The changeover was big news.

Tau Sigma Tau had been on campus since November 9, 1950. It is unclear how they got approved as a solely social fraternity. Through January 1954, the Board of Regents continued to reaffirm that any club, fraternity, or student organization be of a semi-honorary nature. Delta Alpha met that standard with an initial stated purpose of organizing campus activities to foster good relationships between faculty and the student body. It was okay that they were primarily a social fraternity. TST had no such lofty stated purpose... "responsible to God, to self, (and) to one another, pledged to the humble hearty company of all men, bound together in mutual respect and cooperation." Nice gobbledygook but not even close to a semi-honorary nature by anyone's stretch of imagination. Sparks must have made huge promises they would play nice.

Tau Sigma Tau desires to become affiliated with a national fraternity

The brief submitted by Tau Sigma Tau fraternity was given careful consideration by the Board of Regents.

Motion was made by Mr. Price that the President and Dean of Students look into the situation in other State schools and investigate the pattern of fraternities in other State schools and that a further detailed investigation be made of the constitutional requirements of the Tau Kappa Epsilon national fraternity; and a recommendation be made at the next meeting of the Board of Regents. This motion was seconded by Mr. Franklin; and the roll was called on its adoption with the following result: Mr. Franklin, aye; Mr. Price, aye; Mr. Springer, aye.

With 60 new active Pike members, they were the first national social fraternity on campus. Taking over five years to get the Board's support, they are on record as initially petitioning a request for approval on January 17, 1955 (above). At the time, the Board had been petitioned by Tau Kappa Epsilon to come on campus or perhaps Tau Sigma Tau was initially looking into joining them. This, too, is unclear. What is known for certain is that Dr. Sparks was the Advisor to the Student Organization at the time...and was their faculty Chapter Sponsor.

More importantly, there is another tidbit of information that may not have been widely recognized or understood at the time. When Pi Kappa Alpha was 'suddenly' installed, **Dean William G. Nash, Dean of Murray State College**, was serving as the Tau Sigma Tau sponsor and then became the first Chapter Advisor for PKA. As a Pike alumnus out of Georgetown College, he was decidedly instrumental in getting the Pike chapter on campus before any other fraternity. It was all done rather hush-hush until the big announcement was made. The resignation of Dr. Sparks in 1957 as the TST chapter sponsor was not widely publicized nor was it generally known that the dean of the college had stepped in to replace him. That is impressive support from the school.

It can be further speculated that the **Dean of Students, Mr. J. Max Sparkman**, and the President, Dr. Woods, and Dr. Sparks were in on the escapade. As an office specifically created to support individual students, to be their advocate, Sparkman's primary duty was the welfare of the student body and be a sanctuary for the troubled. There is no evidence to support they hid all these dubious behind-the-scenes activities from one another.

A suitable assumption can be made that Dr. Sparks stepped aside when it was decided to seek affiliation with Pi Kappa Alpha and Dean Nash took over. That would have to mean that Tau Sigma Tau became a colony as early as 1957. Odd how that bit of newsworthy information was kept so quiet for over a year.

Upon hearing the sudden news of the Pike invasion, the other two fraternities started to scramble as more gossip of other changes began to float around campus. Fraternity room neighbor, Delta Alpha, certainly heard the speculations. That spring it was reported they were courting Sigma Chi. They truly were - they had an inside track just as Tau Sigma Tau did.

The president of Murray State, **Dr. Ralph H. Woods**, who was an **Alpha Gamma Rho alumnus** himself, met with some Delta Alpha members privately - secretly, if you will - earlier in the spring semester, strongly urging them to quickly seek affiliation with a nationally recognized fraternity. This little caucus occurred long before the Pike news came out or the Board of Regents voted to approve Pi Kappa Alpha. Interesting.

At the time of the little rendezvous advice from Dr. Woods, the longtime Chapter Advisor of Delta Alpha was **Dr. R. B. Parsons**, who was a professor in the Education Department. He reported directly to none other than Dr. Harry M. Sparks. Parsons would become the first Chapter Advisor to Sigma Chi at Murray State. It can be conjectured that the secret counseling would appear more 'sanctioned' if it came directly from the President.

We will never know all the details but it could be postulated that Dr. Sparks and his minion, Dr. Parsons, were highly persuasive in getting Dr. Woods to advise Delta Alpha personally. Dr. Woods had a knack for getting anything he wanted.

No records exist showing that Woods ever visited Beta Tau Beta with such advice. It can be further assumed that Dr. Sparks, Mr. Sparkman, and Dr. Woods did not have faulty memories and vividly recalled how Beta Tau Beta came about and had no intention of assisting them whatsoever.

With two of the Delta Alpha's founders in 1948 as Sigma Chi alumni, they voted to petition the national organization by April of 1958, quickly heeding Dr. Woods' advice. Installation took place April 25, 1959. They installed 88 undergraduates and 35 alumni of Delta Alpha. They were the second success story of the administration housed in Wilson Hall, literally working a few floors above the 3 fraternity rooms.

When they officially became a Sigma Chi colony is unknown. Maybe we beat them, maybe not. It did take a full year, however, for them to get their charter. Maybe they had trouble qualifying.

So far, what is known about the first two fraternities to go national between the spring of 1958 and the spring of 1959 is that Dr. Woods surreptitiously supported Delta Alpha at the time. One of his successors, Dr. Sparks, was the founding sponsor of Tau Sigma Tau and they were already Pikes with the help of Dean Nash. One of Dr. Sparks' employees, Dr. Parsons, was the first Chapter Advisor to Sigma Chi and Dean Sparkman was almost certainly in the loop. Obviously, it surely can be said that Woods, Sparks, Nash, Parsons, and Sparkman in the school administration (The Old Boys Club) played favorites from the get-go. And they did not stop there.

There was also some hearsay floating around that a new national fraternity was coming on campus. It was true. **Tau Kappa Epsilon** was indeed installed May 22, 1959, at Murray State. The Tekes became the 4th national social fraternity on Murray campus in a 14-month period, the last three coming in a rapid rash of installations within a consecutive 4-week timeframe. It is no accident that Alpha Tau Omega was one of them, no thanks to the administration.

Sidebar: Finish this old fraternity saw, "If you can't go Greek, go (___)."

The brothers of Beta Tau Beta, in the twilight weeks of the spring semester in 1958, found themselves in the wake of all this whirlwind of change, amidst the swirling rumors of even more change at that. The Old Boys Club were more than satisfied to just let them twist in the wind.

In normal business or unsavory political worlds, their conduct could be seen as collusion. In the realm of liberal arts education it might be considered critical thinking. To an everyday Kentucky citizen, the ones paying their wages, their actions would be seen as either administering 'comeupins' to Beta Tau Beta or just getting plain old dirty dog revenge.

On the other hand, there is a real possibility each of the administration members were themselves twisting in the wind over the complex fraternity issue. Sometimes in management circles it is hard for the right hand to know what the left hand is doing. The only drawback to considering this possibility, one has to assume the administration members were poor business communicators. There is little to indicate that was the case.

Possible Alternative Scenario...

It is impossible to know what is the hearts and minds of men. It is hard to understand what motivates an individual or comprehend the nuances and subtleties found in group behavior. All of the administration during the fraternity upheavals are deceased so they cannot even be asked. All we can do is chronicle their actions as fairly as we can and then try to interpret them as best we can.

There is a possible alternate theory to what actually went on behind the scenes with the administration, in particular the Old Boys Club, regarding fraternities and the huge changes going on. Instead of being in lockstep, orchestrating a united effort to assist the two 'favored' fraternities, perhaps they were each working independently behind each other's back. In this potential context, they may have even been at odds with one another over the fraternity issue.

Starting at the top, Dr. Woods, was 60 years old in 1958 and in his 13th year as President of Murray State. Delta Alpha was allowed to come on campus only 3 years after he began his reign. Over the course of time he may have felt a kinship of sorts to the fraternity. After all, they did conduct several annual projects aimed at bettering campus life and the relationship of the faculty with the student body.

Upon hearing from Dean Nash that the Tau Sigma Tau fraternity was seeking to petition Pi Kappa Alpha to become a colony, of which he was an alumnus, Dr. Woods may have given a courtesy 'heads up' to his old favored cronies that they should get to work quickly lest they get caught napping. That he gave them counsel may have been totally unknown to Dr. Sparks, Dean Sparkman, Dean Nash, or Dr. Parsons. This still does not excuse him from treating Beta Tau Beta fairly with the same info but it may be assumed the Best Brotherhood wounds were not quite healed.

As for Dr. Sparks resigning and Dean Nash taking over, there may have been a rift between Tau Sigma Tau and Dr. Sparks over wanting to go national. In this storyline, Dr. Sparks and Dean Nash may have been at odds. If Sparks resisted and Nash encouraged the fraternity to petition then it may have been a mutual parting of the ways; the fraternity wanted Nash in and Sparks out. Woods would not have cared, Nash was the dean of the college. Sparkman had no say-so over the matter; he was the fraternity cop. Sparks was still the overall advisor to all the student organizations so it was a win-win for everyone.

Once the Pikes were approved by the Board of Regents, Delta Alpha did not even have to ask anyone's permission to petition Sigma Chi. Nor did Beta Tau Beta for that matter.

Instead of being conniving administration accomplices, they may have all worked only in their own small realm of power. Maybe they sought to gain a leg up on one another and were not forthcoming with all the news all the time with each other. Or maybe they didn't talk about the fraternity issue at all except in Board meetings; no one seemed to have complete dominion over fraternities - one of the reasons the college struggled with the issue. Or there may be the distinct possibility they didn't even like each other.

In reality, we will never know the inside scoop on all the behind closed door dealings and interplay going on within the ranks of the administration from 1957 through 1959. The only thing we know for certain is that every one of the players in the Old Boys Club ignored Beta Tau Beta - we will never know whether or not it was intentionally choreographed or if they worked independently but collectively not giving a thought about that 'other' fraternity. You know, that new-upstart-with-a-troubled-past one.

Untold Beginning Of Zeta Lambda...

When we trace the roots of our lineage as Zeta Lambda alumni we end up going all the way back to the founding of Best Brotherhood in 1955. We then follow their move in 1957 to the forced adoption of a new organization, the formation of Beta Tau Beta. This confirms our beginning but not our genesis.

When we look closely at the ancestry of the Murray chapter, our origin as ATO alumni, the troubled inception started in the early spring of 1958, shortly after the Pike announcement was made. It took until fall before conception was completed. In less than eight months we were successfully carried to term by the ATO Club as our hard-working surrogate parent, leading to the healthy, happy birth of our chapter in 1959. It was no accident.

Every saga that ends on a happy note needs a hero. Zeta Lambda has a trio of them to thank for its very existence and yet few know the real story of why - or how - we ended up as ATO's. The names of these three Brothers should be permanently engraved in our most sacred shrine of honor to remember. They represent to Zeta Lambda what Otis Allan Glazebrook, Erskine Mayo Ross, and Alfred Marshall were to the founding of Alpha Tau Omega.

Our Alpha Tau Omega heritage rests squarely on the shoulders of these three Brothers. One of the guys has been a complete unknown as a significant contributor in the genes of our chapter's DNA. He was a Brother from another chapter whose name has never been mentioned but he deserves our full respect as much as the other two who are Charter Initiates.

Their names are Bill Kaler, Don Mills, and Bob Wilson...they were the leaders in our history when it counted the most. We can point to these three guys as the reason WHY we call ourselves ATO's and not something else. The story of HOW they made it happen has never been told.

They are different from one another but in 1958 they shared three things in common. They had a strong network of close friends, they worked with a sense of purpose and urgency, and in their own individual way knew how to build a consensus. Here are their stories...and the details of our chapter's creation.

Billy Bob Kaler (as he was known then) was a senior in 1958. If you were to ask him the fall before, he would tell you he was going to graduate in the spring as a Beta Tau Beta alumnus (he was their VP at the time), as well as Scabbard and Blade, earning two BS degrees - in Industrial Arts and Health & Physical Education. He did indeed graduate in January 1959 and was already in the military shortly afterward. Bill had a ton of friends, all good friends. Otherwise, they were not friends at all. They always had each other's backs. He was a loyal fraternity member and was troubled in the spring with the Pike announcement.

Like everyone, Bill felt the urgency to take immediate action in order to not be left behind in the steady double-time march of the other local fraternities toward becoming associated with topnotch national organizations. It weighed heavy on his mind that Beta Tau Beta might fade out of existence if they were bypassed in this sudden rush to join national topflight ones, leaving only the crumbs to sift through.

His only conclusion was that something **MUST** be done and he was going to do it. Rather than sit back and let events unfold as a passive recipient, he decided to do the most logical thing he could think of -

call a friend. Not only was he a good friend, they grew up together, and he was an ATO at UK. He'd tell Bill what needed to be done. His name was Donnie Mills, another boy from Clinton.

Before making the call, Bill informed the new President of BTB, Bob Wilson, what he was planning to do to get his reaction and buy-in. Bob was pragmatic about it. He agreed they needed some advice on how to proceed and it was better coming from someone with boots on the ground. Bill Kaler made the call that afternoon on his own dime; there were no free long-distance call plans in those days.

Bill explained the situation at Murray with the Pikes and soon-to-be Sigma Chi's. He went on to bluntly ask Donnie if he thought there might be an interest from ATO and how he should go about doing it. He suggested they have a face-to-face meeting as soon as possible to discuss the particulars.

Clinton boys don't need to be told twice. Donnie said he could not meet that afternoon but would be down the next day (it was at least a 5-hour drive). Bill hung up overjoyed. He went to see Bob right away and told him what happened and asked him if he could call a special meeting after classes for the next day. Donnie was going to make a presentation about Alpha Tau Omega to Beta Tau Beta about how to petition to become a colony.

Bob said, "No problem. Consider it done."

The next afternoon Donnie showed up with two of his Mu Iota Brothers loaded for bear.

Donnie Mills (as he went by in those days) was a student at University of Kentucky, a senior himself. He was 21 years old. He was the President of Mu Iota and a former VP, VP of the Inter-Fraternity Council, on the Varsity Swim Team, social chairman for the Student Government Association, treasurer of the Young Democrats, was a member of Sigma Delta Chi (journalism fraternity), was in Scabbard & Blade, was a writer for the college newspaper, in the Student Alumni Association as well as three other campus organizations. In short, he was a BMOC, a proven leader and achiever.

Furthermore, he was just a likable guy. As a journalism major he commanded a rich vocabulary and was very comfortable speaking to large groups of people (stage presence) and he was easy to smile even if confronted with a difficult question to answer. Bill could not have called anyone more qualified to talk to the fledgling group at Murray looking for answers and not knowing what to ask or who to ask.

Donnie was prepared. When he got to the hastily called meeting he told them all about ATO, how to go about petitioning the national organization to become a colony, and what they would be required to do to be installed. He answered all questions confidently. He wowed them.

Bill politely asked Donnie to leave so they could openly discuss the proposition privately. In short order, they voted that night, unanimously, to petition Alpha Tau Omega to become affiliated. Thanks, Bill.

True to his word, Donnie helped them through the initial maze of meetings and paperwork needed to get them approved as an ATO colony. Donald Rhey Mills deserves a place of high esteem in the annals of Zeta Lambda history. Thanks, Don.

In some respects, Bill's quick action to get Donnie's help allowed him to almost singlehandedly beat the Old Boys Club at their own game.

"Badges? We don't need no stinkin' badges!" ~ Blazing Saddles

Bob Wilson in the spring of 1958 was the President of Beta Tau Beta, taking over from Bud Vest who was graduating. Married, he was not a rah-rah type of leader; he led by example and instilled a teamwork mentality in the active chapter. Well respected, he led with a quiet sense of dignity and had a very close relationship with everyone in the fraternity. Comprised of mostly older members, Bob was the perfect guy for the job.

True to his generation, he sought to get needed jobs done and done right. It fell on his shoulders to see to it that everything was up to par so that a petition to Alpha Tau Omega would go as soon as possible and without a hitch.

If you are of the opinion that all a Worthy Master does is run the weekly meetings, then talk to one. At any moment's notice they are the ones called before the President of the school or meet with the Dean of Students. They are the first to show up for work details and roll up their sleeves to pitch in. They are forever balancing balls in the air to balancing the budget. Balancing their own school work load while keeping the chapter on an even keel. They delegate as much as possible except for the responsibility; at times, they alone, are the only ones answerable for any problems that arise.

Bob supported Bill's initial steps to seek help. He could have easily acted as the 'boss' and tried to step in. He conferred with Bill and Donnie before the presentation, got the chapter together for the hurry up meeting, helped gain the chapter's support to go with ATO, and then utilized his leverage to oversee getting a whistle clean petition to national.

Quietly but efficiently he got the job done and then passed the torch over to Bob Jennings. Bob Wilson is the third leg of a triad we owe our existence as Zeta Lambda Tau's. Thanks, Bob.

Smart Thinking...

Alpha Tau Omega was a good choice. In 1958 it was not the largest fraternity organization in the nation but was very strong with 117 active chapters and over 63,000 members. More importantly in 1958, among the 'old line' fraternities, it could honestly boast having the nation's best academic students.

According to an annual report of fraternities by Col. Ralph W. Wilson of Atlanta, former counselor of the **National Interfraternity Conference** (NIC), ATO's ranked #1 based on the percentage of chapters that exceeded the men's grade averages on their respective campuses. The NIC represents most all national fraternities and serves as an advocate for "the needs of its member fraternities through enrichment of the fraternity experience, advancement and growth of the fraternity community, and enhancement of the educational mission of the host institutions."

Given the experience of losing so many members of Best Brotherhood due to grades in its conversion to Beta Tau Beta, stressing scholastic achievement was a huge selling point in convincing the BTB's to vote for and actively work toward becoming ATO's as a **colony**. It became official September 22, 1958.

From the Pike announcement in March to its approval in September, the formation of the ATO Club took less than 6 months to complete. Bill, Don, and Bob led the parade but the hard work was accomplished by the brothers of Beta Tau Beta. Without their diligence and dedication it would not have happened.

ATO Club Was A Colony...

No bones about it, ATO Club was a formally sanctioned colony of Alpha Tau Omega; they were a true, legitimate, genuine, authentic, real, actual, bona fide, proper - any descriptor you want to use - member of ATO. They were officially associated with the national organization. Otherwise, the publicized use of Alpha Tau Omega in their new temporary name would have been a huge infringement on a copyrighted title resulting in no telling what legal repercussions. Therefore, the Zeta Lambda chapter can rightfully boast becoming the second nationally affiliated fraternity on campus at Murray State even though we were the third to be installed, behind Sigma Chi by two weeks and before Tau Kappa Epsilon by 13 days.

The start of Alpha Tau Omega at Murray State began on September 22, 1958, a date we should hold as dear as we do the installation date of May 9, 1959.

Dr. **Robert F. Alsup** was the faculty sponsor of ATO Club. He, too, was an employee of Dr. Sparks. The tentacles of Sparks remained omnipresent to measure the pulse of all social fraternities on campus.

Being a colony translates to being a fraternity on probation. This does not mean a restrictive category, unable to participate in all activities until sworn in, voted on by a governing body, or some appropriate corrections are made. It does not mean going through a specified period of time with no membership arrests, no failed drug tests, or waiting on criminal background checks.

Yes, arrests ARE extremely frowned on as well as any disciplinary actions by the school. Sounds funny but drinking and parties were carefully controlled during ATO Club's probationary stage.

Probation, per ATO, is a period of time allowing a colony to become fully qualified, for meeting all the mandatory standards and requirements their existing chapters function under. The goal is to convince the National Fraternity that it is worthy of being fully chartered. During that time, an unspecified period but a couple of semesters is customary, the colony must complete a profile of every member, earn community service hours, host social events, choose a philanthropic cause, host member retreats, and meet the college's grade point averages to become eligible members of a fraternity.

Being a colony is tantamount to pledging; it is the first organizational step toward becoming a rightful fraternity chapter. Members participate in meetings, fundraising and other activities but do not have full membership status. The operative word here is 'full'...much like a pledge is an ATO in training.

Part of the background work that must be accomplished is formalizing the impending new chapter's bylaws, policies and procedures in accordance with school policies and requirements, unlike how BB and BTB operated, and in parallel with ATO national standards. Every aspect of the new active chapter is to be spelled out in detail. From pledgship to membership, from initiations to meetings, from finances to election of officers, everything must be addressed.

There are no Black Ball meetings over the course of the probationary period where compatibility or personality enters into the equation; it is simply a Yes or No checkbox. An ATO colony fraternity either accomplishes their mission or they do not.

10-16-1958 Board of Regents

STANDINGS REQUIRED FOR NATIONAL FRATERNITIES ON CAMPUS APPROVED

PRESIDENT WOODS READ THE FOLLOWING STATEMENT REGARDING NATIONAL FRATERNITIES AND SORORITIES ON CAMPUS:

TO BE ELIGIBLE TO BE **INITIATED** IN A FRATERNITY OR A SORORITY, THE PERSON MUST HAVE A STANDING OF 2.10 FOR THE PRECEDING SEMESTER AND FOR HIS ENTIRE WORK AT MURRAY STATE COLLEGE. THESE STANDINGS, OF COURSE, ARE BASED ON THE 4.00 SYSTEM--ALLOWING FOUR CREDIT POINTS FOR AN **A**, THREE FOR **B**, TWO FOR **C**, ONE FOR **D**, ZERO FOR **E** OR **F**.

A TRANSFER STUDENT TO BE INITIATED MUST HAVE BEEN IN RESIDENCE AT LEAST ONE SEMESTER AND HAVE A STANDING OF 2.10 AS IS REQUIRED FOR PERSONS WHO HAVE HAD ALL THEIR WORK AT MURRAY STATE COLLEGE. **A PERSON IS NOT ELIGIBLE TO BE PLEDGED UNLESS HE IS ELIGIBLE TO BE INITIATED.**

ANY FRATERNITY OR SORORITY MAY REQUIRE A STANDING HIGHER THAN THE 2.10 AND WILL BE APPLAUDED BY THE COLLEGE FOR SO DOING.

MOTION WAS MADE BY MR. DORAN THAT THE RECOMMENDATION OF THE PRESIDENT REGARDING THE STANDING REQUIRED FOR NATIONAL FRATERNITIES AND SORORITIES BE APPROVED. THIS MOTION WAS SECONDED BY MR. SCHOEPFLIN AND CARRIED UNANIMOUSLY.

After sneaking the Pikes in, the Board changed the rules. By the time the ATO Club was a colony (6 days prior) they stiffened the academic eligibility rules to be initiated into a fraternity. Even getting to pledgship was made more stringent.

Translated, revised grade point standards were applied to every prospective candidate. It was a worthy measure to only take pledges who have the grades; it only makes sense.

For the ATO Club, it meant that everyone as of September 16th had to have a 2.10 GPA or they were not going to be qualified to be initiated into ATO whether or not they were already in BTB in good standing.

Who's In, Who's Out...

Obviously we met all the requirements and passed muster...fifty-nine years later we're here reading this as alumni. The ATO Club worked tirelessly to make that happen, as you will see on the succeeding pages. The only two hitches in getting there had to do with numbers and Murray State College's school year.

In order to qualify as ready to petition, a colony had to surpass a 45-member requirement. Beta Tau Beta contributed about two dozen heading into the Fall Semester of 1958. ATO Club had to recruit like crazy to become eligible. They did. The fall class had 21 pledges and the spring class had 18. This would give them in excess of 60 members (in the 63-66 range). So why did only 50 members become initiated?

The answer can be traced back directly to the Murray State College year; **24 members graduated!** The guys did not necessarily turn down the opportunity to become ATO's consciously - THEY MISSED IT!

Labor Day is celebrated on the first Monday in September. Murray State now always commences classes the day after the holiday. In 1958, however, the fall semester started on September 15th. Seven days later all the negotiations and paperwork were finalized with national and the Beta Tau Beta fraternity officially became the ATO Club, a colony. No problem.

Ahh, it is the spring semester timing that is the obstacle. It is a little less formalized, depending on how many weeks away from when the start of the semester begins, which is usually somewhere during the

week in mid-January after the holiday break. The schedule always allows for a spring break around the 3rd week in March (Florida was always a popular place to go for those who could afford it).

Classes always end around the last week of April or first week of May, depending on how the calendar breaks, and finals immediately follow for a 5-day week. Commencement (the graduation ceremonies) always happen the day after finals are over. The first session of summer school begins about mid-May. Anyone trapped on campus between the end of finals and the beginning of summer school can tell you it is a lonely desolate place. Nobody hangs around just for the fun of it.

I could not find the specific graduation date in 1959 but **it is known that the Commencement Exercises occurred BEFORE the Installation Ceremonies**, probably by as much as 7 to 10 days. ATO did a fantastic job of getting everyone's grades to national in order to qualify themselves rapidly. How and to what extent pre-installation announcements were made to the ATO Club membership is lost to the ages.

What is definitely known is that as many as nine ATO Club members left Murray State early in May after the semester ended, 8 who had graduated, and did not make it back to the installation proceedings. **For whatever personal reasons they held - marriage, first job, illness, military, long distance, money, etc. - if they did not participate, they could not initiate.** Becoming an ATO Brother required taking that final step, going through the installation process. Simple as that. If they did not pay, they could not play.

Brief Pledgeship Refresher Course...

What do the three stars and crescent moon on the Pledge Pin symbolize? The qualities of **scholarship, fellowship, and character** (stars) under the **guidance** of ATO initiates to develop them in the pledges (crescent moon).

We should all remain pledged to these lofty ideals.

What are the **six duties** of an ATO Brother? Finances, Personal Conduct, Academic & Student Activities, Recruitment, Participation in Signature Events, and National Fraternity Relations.

Not a bad idea, now as alumni (and we all are), we recommit ourselves to these six duties.

When does 'the brotherhood' of an initiate start? With the first duty, **Finances**...after his bills are paid.

This mandate directly refers to the national organization's position but also applies to the local chapter. As active ATO alumni, we are not required to donate money to the myriad of worthwhile initiatives they constantly besiege us with requests to support; it is voluntary. As active Zeta Lambda alumni, we have no outstanding debt with the chapter. Any monetary support given toward the **Housing Corporation** or the **ATO Scholarship Endowment** stays dedicated solely to the chapter, solidly earmarked as designated.

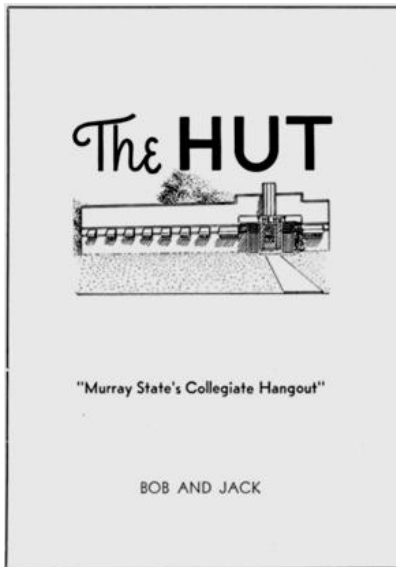

Zeta Lambda has seldom contacted most of the alumni begging for money. They do not even have an up-to-date roster. The last big push came 25 years ago when the new **Chapter House** was being built.

FYI#1: The 'commercial break' (above) is intended only to demonstrate the ideals under which the ATO Club formed itself as a colony and subsequently became incorporated into Zeta Lambda dogma.

FYI#2: Nothing in the above is considered any of the hobby-gobby secret stuff.

Fond Memories

Nothing meant more to daily routine than spending time with friends and Brothers in **The Hut**. It was the social hub of campus activity during the day. Jack was a friend to all but not always the friendliest. Music was always playing on the jukebox and the pinball machines always had a line waiting. The food was good and affordable.

Contrary to popular belief most of our time was spent in classrooms or studying. Fraternity and 'other' things occupied the rest. The last Pledge Class to have only the ATO Fraternity Room was Pi (Spring '67).

The Big Apple, Chief's, and the 641 Club were the go-to destinations for 'Going South.' There is now a **Big Apple Cafe** in Murray - ATO's are still meeting there.

R.O.T.C. drills took up Thursday afternoons and Saturdays in the fall were devoted to football games. Dressed up in our blue blazers with the ATO crest sewn on the pocket we cheered extra loud when the ATO cannon was fired after each touchdown.

Cutchin Stadium was a cozy place. Unlike the football games, it was fun watching a Murray home basketball game because they won.

Fraternity dances on weekends, searching for a date for the dances all week, Monday night in Wilson Hall for ATO meetings, going South, impromptu get-togethers at Kentucky Lake...there was always an activity going on. Before there was the Chapter House the ATO Fraternity Room was a daily place to relax between classes and have a few laughs...unless you were pledging.

No matter when you were there, Murray has changed a lot. Our Brothers? Not so much. Just older. **"We are the people our parents warned us about."** ~ Jimmy Buffett

Reaching The Goal: The Colony To-Do List...

Agressive Recruiting

Alpha Tau Omega
Alpha Tau Omega Club has installed 21 pledges for the fall semester.
Pledging under pledgemaster Jerry Douglas are Pat Thomas, Hopkinsville; Bill Smith, Grindstone, Pa.; Joe Heier, Greenfield, Kansas; Ed Waldrop, Murray; Norman Woods, Sikeston, Mo.; and Wilson, Welch, Paducah.
Also pledging are Tom Paul, Louisville; Ron Jenkins, Morganfield; Alfred Grace, Hopkinsville; Gene Ray, Murray; Dick Bray, Paris, Tenn.; John Shroat, Murray; Bill Dixon, LaGrange; Wayne Talen, Brookport, Ill.
Bob Cassity, Golden Pond; and Elias Williams, Cadiz.
Completing the pledge list are George Akers, Monmouth, N. J.; Dickie Wheeler, Murray; Charles Wells, Morganfield; Gene Miles, Murray; and Jim Bartan, St. Louis, Mo.

ATO Club Initiates 20 Into Fraternity
Alpha Tau Omega Club initiated 20 pledges Monday, Jan. 12, in the fraternity room in Wilson Hall.
Initiated were: Pat Thomas, Hopkinsville; Bill Smith, Grindstone, Pa.; Joe Hier, Greenfield, Kan.; Ed Walpole, Lake Worth, Fla.; Norman Woods, Sikeston, Mo., and Wilson Welch, Paducah.
Also pledging are Tom Paul, Louisville; Ron Jenkins, Morganfield; Alfred Grace, Hopkinsville; Gene Ray, Murray; Dick Bray, Paris, Tenn.; John Shroat, Murray; Bill Dixon, LaGrange; Wayne Talen, Brookport, Ill.

Alpha Tau Omega
Alpha Tau Omega Club installed 18 students as pledges in the Wilson Hall fraternity room Monday night, March 2.
Pledging are Marion Perry, St. Petersburg, Fla.; Robert Huie, Paducah; Carl Ray Averitt, Paducah; Charles Taylor, Hazel; Dennis Hill, Detroit; Hugh Montgomery Calhoun; Charles McDowell Providence; Ray Dunn, Hazel; Robert Overson, Hodgenville; and Douglas Harris, Owensboro;
Jerry Summerville, Champaign, Ill.; Earl Jones, Murray; Billy Rogers, Murray; Jimmy Ot Irvin, Texas; Kenneth Mitchell Cadiz; Will Bondurant, Fulton; Terry Gaines, Hebron; and Johnnie Parker, Kirksey.

The phenomenal effort ATO Club did as a colony in the fall of '58 to spring of '59 with recruiting worthy pledges directly led to us receiving our charter. Great Charter Initiates who came out of these classes led us through the early years with enthusiastic effort in recruiting. They led to our success coming out of the gate.
Beta Tau Beta via the ATO Club has earned a position of respect.

Celebration Dinner

Shannon Beasley, ATO sweetheart, and Regina Thomas, sweetheart attendant, admire President Bob Jennings' new ATO pin as Bob Wilson, retiring president, looks on.

To celebrate the new status as an ATO Colony (and help meet the requirement to host social events) the ATO Club organized a formal fancy dinner to mark the special occasion.
These pioneers chose true leaders who not only accepted their call but forged high ideals which became the chapter standard for many years.

Above: Shannon Beasley, sister of ATO Bill Beasley (Lambda '64), was the first ATO Sweetheart.
Right: Some really neat guys in this picture did not become ATO's.

Working At The Orphanage

Back Row: Earl Jones, Ray Melear, Ray Dunn, **Middle Row:** Tom Paul, Bob Jennings, Pat Thomas, Dennis Hill, Johnny Rudd, Leo Burns, Terry Gaines, Phillip Knight, Harry King, **First Row:** Ed Pullen, Riley Emery, Willis Thornsberry, John Shroat, Bruce Jeffress

True to their commitment to fully satisfy the community activity requirements with the national organization, the first pledge class and new Charter Initiates undertook a project of working at a local orphanage. Actives and pledges alike pitched in to donate their time.

Charity deeds at an orphanage is a high-profile project that garners local media attention. This was not only a worthwhile endeavor, it was a smart marketing move.

Community service hours replaced Hell Week as a way to support local efforts by providing meaningful assistance to people and programs in need. It is a tradition still in practice today.

The benefits of providing donated time and work to a cause typically flows in both directions...Brothers get as much out it as the people or institutions do.

Murray State rarely acknowledged any fraternity philanthropic activities.

It is a dishonor to our Charter Initiates to not consider this era of our rich history as significant. Some of the Founding Brothers went through dual pledgeships, their own as well as ATO Club's pledgeship to the national organization. Without their tireless work and dedication to their common purpose the date of May 9, 1959, would not have happened. We literally owe them a debt of gratitude for putting in the effort then that allows us to call ourselves ATO's from Murray State today.

When you review the information about the Instillation of Alpha Tau Omega, Zeta Lambda, think of the history. In four short years, from a small group of seven close friends who wanted to form their own club, survived three name changes, and ended up on the other side as proud members of the best fraternity on earth, you cannot help but feel a deep sense of appreciation.

We are forever linked to Best Brotherhood, Beta Tau Beta, and ATO Club. They are as much a part of our rich history as the rest of the 59 years of Zeta Lambda.

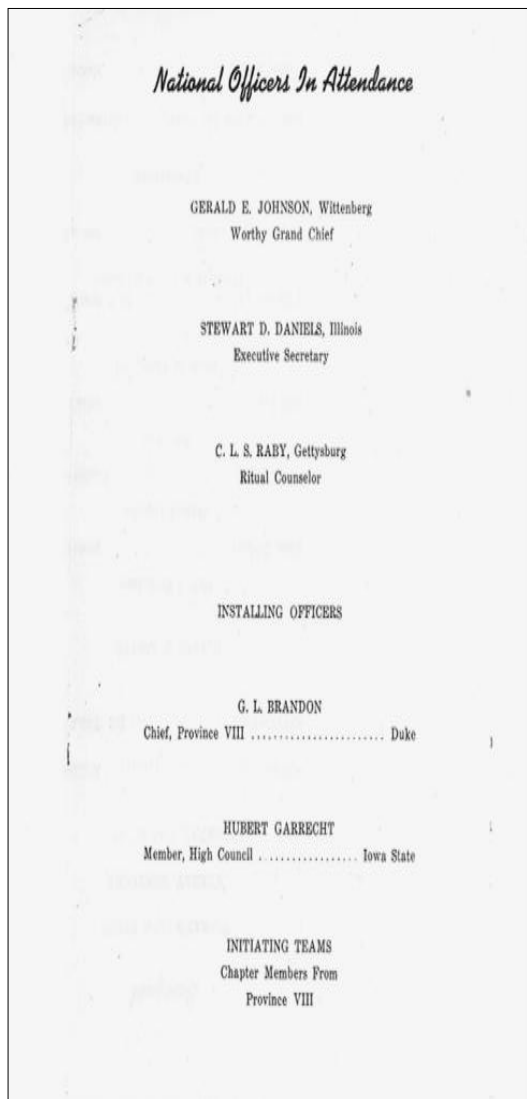

All the guys in this directory may not be 'official' brothers but we do share a common brotherhood. Unfortunately, the '55-'59 legion of trailblazers are again leading the way toward Chapter Eternal. Let us not forget their legacy.

— Alpha Tau Omega —

It's Official...

Meeting all the colony requirements and getting the grades and petition papers quickly to the Province Chief, ATO Club was set up to be installed as the newest Alpha Tau Omega chapter, Zeta Lambda. They did it without any secret inside information or well-connected administration. It was the 146th chapter of the national organization and the third nationally affiliated social fraternity to come on Murray State College campus. The three neighbors in the basement of Wilson Hall were each linked to well-known, respected fraternity institutions. The competition would become ever so more fierce henceforth.

The guys who were to become Charter Initiates knew they were about to embark on a historic event. From that day forward their names were always going to be etched at the top of Zeta Lambda lists of Brothers. They wanted to make their installation an exceptional event, worthy of the dignity that they had worked so hard to earn.

Six members of the national ATO organization were to take part in the ceremonies, including the Worthy Grand Chief. Chapter members of Province VIII (from Union Univ.) were to be on hand functioning as 'Initiating Teams' to assist. Dr. Ralph Woods and other notable college officials would be in attendance. It was a big deal day. They planned it down to the smallest detail.

At the banquet following the installation they were prayed over, praised, speechified and lauded for their outstanding efforts and determination to merit their membership in Alpha Tau Omega...not merely as a personal matter but as a long term legacy for future generations of young men to find brotherhood. Alpha Tau Omega granted Zeta Lambda based on merit. The Charter Initiates gave Zeta Lambda to us expecting that we would live up to the ideals.

Without their efforts then...from the fall of 1958 through the spring of 1959...the ATO Club's two semesters...we would not exist.

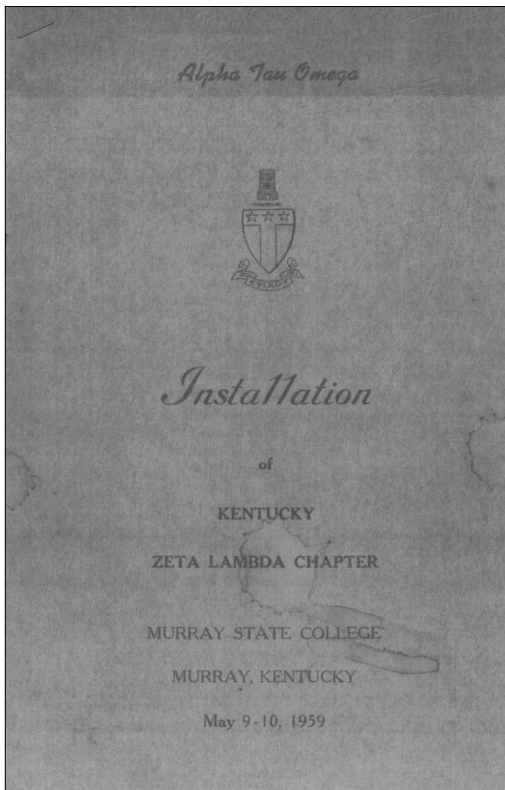

The back cover of the installation program lists the names of initiates. One can see how fluid that short interim time really was. Twelve names were added out of alphabetical sequence; five names are missing. We installed 50.

Installation Day...

Installation Day was exhaustingly long. Assembling at the **Baptist Student Union** on Saturday, May 9th, from 9:00 a.m. until 3:45 p.m., a battery of national fraternity officers presented initiation instructions. This is when the secrets were revealed - explanations of the motto, handshake, password, reasoning of the rituals, and the meaning behind the name. Of course, the importance of knowing the history of our origin was stressed and taught in detail. It was a grueling six-hour cram course in Alpha Tau Omega.

As a new Charter, charges of how to proceed were carefully laid out for how to maintain a successful relationship with the national organization, responsibly run their local chapter financially and actively, and how to initiate new pledges into the fraternity. Installation was only the first day of Zeta Lambda.

The installation of the Zeta Lambda Chapter followed immediately, from 4:00 - 5:30 p.m. They then had 90 minutes to change into a tuxedo, get their picture made, and make it to the banquet on time. Tough.

The Nashville Tennessean is the principal daily newspaper in Nashville, Tennessee. Its circulation area covers 39 counties in Middle Tennessee and eight counties in Southern Kentucky.

Alpha Tau Omega Installed at Murray | MURRAY, KY

The national chapter of Alpha Tau Omega, a social fraternity, has been organized here. The ATO Club last year was officially designated as Zeta Lambda chapter by the national president Gerald E. Johnson, Cleveland, Ohio. He presented the charter to Robert Jennings, St. Louis, the chapter president. Fifty members were installed during the ceremonies. They included Dr. Robert Alsup, of the Murray State faculty, who is the chapter sponsor. ATO is the third national fraternity to be installed at Murray State. The others are Pi Kappa Alpha and Sigma Chi.

Representatives of both, as well as college officials, attended an installation banquet here following the ceremony last week. Installing officers included Gilbert L. Brandon, district officer, and Hubert Garrecht, a member of the fraternity high council, both of Memphis.

Officers of the new chapter, in addition to Jennings, include Norman Woods, Sikeston, Mo, vice president; Alfred Grace, Hopkinsville, treasurer; John Shroat, Murray, secretary; Thomas Spelman, Minneapolis, Ind., historian; Tom Paul, Louisville, sentinel; Bob Cassity, Golden Pond, Ky., usher; and Charles McDowell, Providence, Ky., reporter for The Palm, the national fraternity magazine. ATO was founded at Richmond, Va. in 1865. The only other chapter in the state was installed at the University of Kentucky in 1909.

In the **Murray Woman's Club House** on Vine Street, at 7:00 p.m., the new ATO's celebrated with an elegant Installation Banquet, donning chic white (rented) tuxedos. Guilbert Brandon, district officer, was the Toastmaster. Dr. Woods spoke.

Charter Initiates

First Row: Dr. Robert Alsup, Charlie McDowell, Tom Spelman, Robert Jennings, John Shroat, Alfred Grace, Bob Cassity, Norman Woods, Tom Paul
Second Row: Terry Gaines, Billy Bob Kaler, James Ott, Bill Hoffee, Ken Smith, Harry D. King, Riley Emery, Bob Hager, Steve Harden, Bill Dixon, Ray Melear

Fourth Row: Ray Dunn, Gene Ray, Pat Thomas, Jerry Summerville, Dennis Hill, Bill Dunning, Don Asmus, Paul Davis, Jerry McConnell, Dave Bruce
Fifth Row: Ken Mitchell, Dwain Taylor, John Baggett, Jim Bell, George Waldrop, Elias Williamson, Ed Walpole, Joe D. Pigue

Before heading off to a formal feast of fruit juice, roast turkey with dressing, mashed potatoes, green peas, cranberry salad and apple or cherry pie, our Charter Initiates posed for a somber picture standing on the steps in front of Rainey T. Wells Hall. The average age was 22 years old...the oldest was 29 and only 7 who were 19 years old. Fifteen or sixteen of those standing here had already graduated the week before.

The weekend was not over. On Sunday they attended the **First Baptist Church** where Dr. H. C. Chiles served as Minister. Records do not exist of those who may have been part of a late sudden busy spurt on Saturday night at the Big Apple, filling up the stools and tables...they never carded anyway.

CHAPTER HOUSE

Purposeful stalling to approve fraternity housing or the idle promises of providing a uniform Fraternity Row in the future raged within the Board of Regents, and between fraternities and the Board, for years. Nothing tangible was ever done. In the end it took forcing their hand to get a nod of approval.

07-19-1960 Board of Regents

AFTER THE FACILITIES HEREIN MENTIONED THE NEXT MOST NEEDED FACILITY IS A DORMITORY WITH A CAFETERIA TO SERVE THE MEN STUDENTS WHO WILL BE LIVING IN THE DORMITORIES.

THERE IS A GREAT INTEREST IN **FRATERNITY HOUSES** ON THE PART OF THE MEMBERS OF THE FRATERNITIES AND A NUMBER OF PEOPLE WHO ARE ON THE CAMPUS. PROVIDING THESE FACILITIES SHOULD BE CONSIDERED BY THE SUMMER OF 1961.

From as early as 1959 and up until 1966, a Fraternity Row project was always on the Board of Regents' agendas. They paid lip service to it but always found other projects more urgent and worthwhile.

11-29-1963 Board of Regents

Request regarding Fraternity Houses

After discussion, Mr. Springer presented the following resolution and moved that said resolution be adopted:

WHEREAS, it has not been the policy of Murray State College to permit the operation of fraternity houses by students, and

WHEREAS, long-range plans are such that the College proposes to build fraternity and sorority houses to supplement dormitories, and

WHEREAS, one local fraternity has requested permission to buy and operate a house, and

WHEREAS, the operation of a house by one group will stimulate other groups to want to purchase and operate houses,

NOW, THEREFORE, in light of the probable cost and the difficulty of supervision, I move you that we disapprove the request to purchase and operate a fraternity house by any group at this time.

Mr. Hall seconded the motion for adoption of the resolution and the roll was called with the vote as follows: Mr. Hall, aye; Mr. Hart, aye; Mr. Long, aye; Mr. Springer, aye; Mr. White, aye; and Mr. Butler, aye.

By the time the spring of 1966 rolled around, beginning its 7th year after Zeta Lambda was installed, the thorny issue of allowing fraternity housing at Murray State was already very long and frustrating. Each year, acknowledging in advance the predictable outcome, a troop of brave **Interfraternity Council** delegates petitioned the Board of Regents to allow it and every year it was denied. We all know that Alpha Tau Omega was the

first fraternity to own a Chapter House on campus. However, too many of our later installed Brothers, as well as our forefathers, do not know the full story behind how this victory came about. It is a tale for the ages. It is worth retelling here and remembering for all time.

First Step In Getting The First House...

To those of us who were in the chapter at the time, the decision to finally permit fraternity housing was landmark. Announced just prior the fall semester's end before everyone returned to their families for the holidays, there was a sense of accomplishment that swelled our hearts. After so many years of the Board of Regents stubbornly refusing to even consider arguments to approve fraternity housing, their permission, to the rest of the Greek world at Murray, seemed sudden, like the Pike announcement...and it was. As ATO's, we knew why their unexpected reversal took place.

The ATO's made them an offer they could not refuse. Who was the Chairman of the Board of Regents at the time? None other than Dr. Harry M. Sparks. And Dean Sparkman and Dr. Woods were still around. What goes around, comes around. Maybe it was karma or kismet. Nine years after their heavy-handed ultimatum to Best Brotherhood, their progeny extracted sweet revenge. Payback had come full circle, in spades. We were planning to move off campus.

Help Week, replacing the dangerous (sometimes fatal) hazing of Hell Week during pledgship, requires that each pledge class perform a community service project. That longstanding tradition was altered for the **Xi Pledge Class** in the spring of 1966. At first blush, the project selected appears to be self-serving. In the long haul, it benefited all fraternities at Murray State and changed the complexion of fraternity life, a positive affect for thousands of Greek brothers that will last forever. It was a coup of epic proportion.

A benevolent sympathizer purchased two adjoining pieces of property on the shore of Kentucky Lake. The site had the potential to be a very lucrative investment; unlike most listings at that time, the land was in a remote location, off the crowded beaten path of weekend tourists. There was an access road leading from a convenient highway and a scenic view of the lake in all three directions. The idyllic locale would surely attract wealthy prospects willing to pay handsomely for its beauty, peace, and serenity.

The investor had a problem. This land did not come cheap to him. In purchasing it, he pretty much maxed out his cash and credit limits. In order for him to successfully flip the property to turn a profit, both lots needed clearing. Overgrown with weeds, underbrush, and small trees, it would require an additional large capital outlay if he hired the cleaning done professionally. He was in a quandary.

He put pencil to paper and calculated that should he hire the clearing work done commercially the cost would exceed the recovery of his investment plus the modest profit he anticipated from the sale of one of the lots. He came up with a proposal for ATO that was brilliant in its simplicity.

If we agreed to clear the entire tract at no charge to a degree of attractiveness that it was no longer rough looking but appealing, he could make more profit by selling one plot and deeding ATO the second.

A caravan of cars full of actives and pledges trekked back and forth all week during Help Week. On the way down we were abundantly happy to be out of class and looked forward to being outside in the warm fresh air of spring. Coming back the cars were full of sweaty, dirty, tired, hungry Brothers who mostly remained silent or fell asleep. Cutting, chopping, toting, stacking, raking...we did a good job of dressing up the raw land to convert it into a suitable construction site - highly marketable.

Pleased with the outcome, our daring benefactor lived up to his word and deeded one of the properties to Alpha Tau Omega. We suddenly became landowners! This new status, one we planned on, gave the ATO's a powerful new tool to leverage with the college administration and Board of Regents..

The Coup De Gras...

I was merely a lowly pledge when this process began. Someone (anyone remember who?) got the ball rolling with the land investor but it is the Help Week of the **Xi Pledge Class ('66)** that can rightfully take credit in the annals of Zeta Lambda history as having delivered the goods. Heading in to Help Week we absolutely knew what we intended to do once we had a viable bargaining chip.

By the beginning of the fall semester the plan was set. A special presentation to the Board of Regents was arranged. The logic of the arguments to finally allow the ATO's to have their own fraternity house was crafted. The Board of Regents would only have to choose between two choices...NO was not one of them. Before the meeting happened we sensed we were going to prevail.

The messaging to the Board of Regents went something like this:

- A. Alpha Tau Omega, Zeta Lambda is now a landowner
- B. The land is not on campus or even in Murray so the Board has no authority over it
- C. The Board cannot legally seize the property or stipulate, control, or manage it in any fashion
- D. The Board cannot deny a fraternity the right to own property
 - a. Any attempt to do so would violate the practices allowed at other universities with other fraternities
 - b. Legal consequences from the entire Greek system would rain down on them
- E. As property owners, ATO has the right to do with it as they see fit without Board interference
- F. ATO intends to sell the property and buy a house in Murray, near the campus
- G. Actual ownership of the house will be ATO alumni, an association of free and independent citizens outside the jurisdiction of Board control
- H. The Board has no sovereignty to oversee or govern the transaction of this private consortium
- I. The Board has no say-so as to where the house should be located; it will not be on campus
- J. As private citizens, the fraternity intends to populate the house with only ATO members
- K. The Board has only one of two choices to make:
 - a. The Board can continue to reject the concept of fraternity housing and ATO's will freely make their own house rules
 - b. The Board can accept the concept of fraternity housing and ATO will yield to their jurisdiction to control its campus operation and abide to the rules they establish

Bingo! As the saying used to go, we had them by the short ones. As near as I can gather, this was not a 'formal' Board meeting so the actual Board approval came in December, probably conferring extensively with legal counsel in the intervening weeks. However, those who made the courageous presentation (anyone remember who they were?) left with the impression that the ATO's were approved to go ahead with the purchase of a fraternity house and that the Board of Regents would set the rules of operation.

Getting the Board of Regents approval to own a Chapter House at Murray State automatically allowed ATO's to be the first on campus because we already had the financial wherewithal to make it happen. What we did not realize at the time is that Alpha Tau Omega became the first fraternity to ever own a chapter house, at least in the South. In 1880, only 15 years after ATO's founding, the **Omega Chapter** at the **University of the South** (known as **Sewanee** because they are in Sewanee, TN) acquired one just 3 years after their installation.

Unlike the Murray State experience, their building was actually donated to the chapter by the university "in recognition of service rendered to the University." It had previously been the University Library.

Pigs still weren't flying anywhere in Calloway County, Kentucky, in 1966. Remnants of the Old Boy Club still existed.

Below is the excerpted copy of the Board of Regents meeting minutes approving fraternity housing. Notice there were no descending votes cast - it was a unanimous decision.

Historic 12-15-66 Board of Regents Meeting

Fraternity Housing Off-Campus

Mr. Hart presented the following resolution and moved that it be adopted:

WHEREAS, Murray State University has had national fraternities for a number of years, and

WHEREAS, we have continuing requests for fraternities to rent or buy houses for use of the fraternity, and

WHEREAS, some of the meeting rooms occupied by fraternities are needed for classrooms,

NOW, THEREFORE, BE IT RESOLVED that the President, Dean of Students, with advice and counsel of other faculty members be authorized to approve the renting and/or purchasing of a house by a fraternity providing the rules and procedures including house mothers or supervisors along with proper house management are definitely approved by the proper authorities at the University.

Mr. Powell seconded and the motion carried unanimously.

Mr. Hart, who made the motion, was George S. Hart. On the Board of Trustees, he was an original donor starting the school in 1922 and in whose honor Hart Hall, a new dorm, was under construction at the time. As a former circuit clerk, the Murray mayor for 20 years, and the executive manager at Bank of Murray, Mr. Hart got whatever he wanted.

Six months later the administration is still grappling with the sticky issue of fraternity housing. In the December '66 decision, Alpha Tau Omega was immediately financially capable of buying a house and was proceeding with all due haste to find an ideal place. But we simultaneously opened the floodgates for the other fraternities less prepared and the administration did not know how to stem the swelling tide of requests for alternative arrangements.

Other fraternities, apparently, were suggesting the university step in and build a unified Fraternity Row thus equalizing the playing field. This suggestion was taken seriously; they voted to study the matter.

05-29-67 Board of Regents Meeting

190

Increase of \$2500.00 for Football Budget for 1967-68, Approved

Mr. Springer moved that the Board approve an increase of \$2500.00 for the Football Budget for 1967-68, to provide additional equipment. Mr. Long seconded and the roll was called on the adoption of the motion with the following voting: Mr. Hall, aye; Mr. Hart, aye; Mr. Long, aye; Mr. Powell, aye; Mr. Springer, aye; and Dr. Sparks, aye.

Fraternity Housing

President Woods stated that there is a keen interest on the part of fraternities on the campus in having a fraternity house. He appointed the deans and the business manager to advise with fraternities regarding the purchasing of houses. It now appears that the fraternities would be interested in a fraternity row. Murray State now has active or in the process of being activated nine fraternities. President Woods further stated that he would like the Board's authorization to appoint a committee to evaluate locations for a fraternity row and make specific recommendations at a later meeting.

Mr. Hall moved that the Board authorize President Woods to appoint a committee to evaluate locations for a fraternity row, report to the full committee, and that the full committee in turn make specific recommendations to the President and the Board.

Mr. Long seconded and the motion carried unanimously.

CLARENCE

The decisions in this meeting are twofold and the first is unclear. Specifically appointing the school deans along with the business manager, they were directed to "advise with fraternities regarding purchasing of houses" due to their keen interest. The message they are to deliver is unstated. It may have been advising them on the financial pitfalls, Board rules, how to do it, or perhaps urging them to hold off until the Board could decide on furnishing a Fraternity Row. Within a few days of this meeting ATO opened its doors.

Wouldn't it be interesting to sit in on the preliminary discussions and internal debates pro and con of the Board of Regents and administration, hearing all their concerns, before a decision or resolution is reached?

Our First House...

The **Alumni and Housing Association** purchased the Chapter House at **101 N 16th Street** in June 1967. It was only a few days after the Board of Regents voted to look into the matter of constructing a fraternity row. The excitement was palpable. Tau pride was in the heart of every ATO on campus. **Pauline Speegle** was the first Housemother, appreciated by all.

Mrs. Speegle made the house run smoothly, treating every Brother like a son. Quick to smile and slow to rile she was firm but fair. She enforced the rules conscientiously yet did so with kindness. She would not tolerate rudeness or insubordination yet reveled in good-natured tomfoolery.

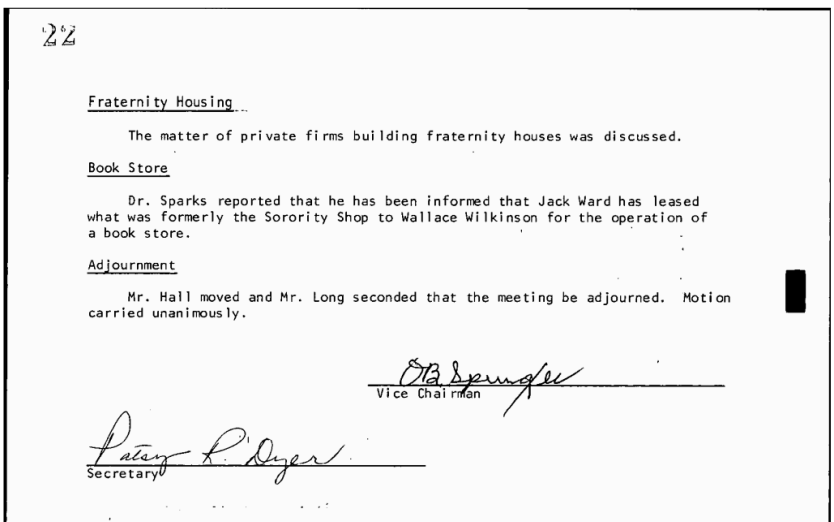

Housemother is a perfect way to describe her. She made everyone feel at home. Our home was her home.

She was 64 years old when she accepted the position. She died in 1985 at the age of 82.

01-29-68 Board of Regents Meeting

Two years after approving fraternity housing the Board of Regents continued to struggle with the issue.

In February 1976, the Alumni and Housing Association acquired the property on the corner of 16th and Main Streets next door to the Chapter House (shoe store) and the property behind the Chapter House on Main Street (beauty shop).

In the late 1980's, the Alumni Association retired the indebtedness on the 16th Street property.

"Some houses have a story. We have a legend." ~ Unknown

ATO Was Not The First To Receive Fraternity House Approval...

Here is an aggravating bit of historical record that will infuriate everyone who lived through the long years of trying to convince the Board of Regents to allow fraternity housing. Unbeknownst to all the Murray State Greek world forming at the end of April through the end of May, the Board had already approved fraternity housing in 1959...and they agreed to pay for it. To make matters worse, their decision came less than a month after the flurry of three national fraternity installations.

In a long one-page letter to the Board of Regents dated May 12, 1959 - JUST THREE DAYS AFTER OUR INSTALLATION - coming from S. A. Carman, Head of the Department of Agriculture, who was retiring, he petitioned for and received approval of college-owned fraternity houses. He speaks on behalf of the Agriculture Club but mentions fraternities in plural. From the tone in his opening remarks, he seems to want to leave a legacy to the school, his department, and his club.

In the letter Carman acknowledges the Ag Club is seeking to join the 'semi-professional social fraternity' of Alpha Gamma Rho. He goes on to point out that one of the tenets of the national organization is that each chapter has to maintain and operate a fraternity house on campus. He goes on to admit that if or when each fraternity is allowed to secure, own property, and build their own fraternity house it would be 'a considerable undertaking financially' and would run the risk of the college possibly encountering many difficulties down the road.

What Carman proposed was a radical idea. The college was experiencing the need to urgently expand facilities because of the surge in student enrollment. He suggested the college build 4 or 5 fraternity houses and rent them to chapters instead of constructing a 3rd or 4th new dormitory. This plan, he argues, allows the administration to have complete control of fraternity housing and to make the final decisions in their management. The Ag Club would wait as long as necessary, as a colony, until the Board bought them a house.

The Board completely agreed. They approved his plan unanimously to build 4 or 5 fraternity houses. The Board budgeted a whopping \$500/yr for the next several years to 'study' a fraternity housing plan.

06-01-59 Board of Regents Meeting

IN VIEW OF THE FACT THAT WE NOW HAVE FOUR NATIONAL FRATERNITIES ON THE CAMPUS AND A FIFTH GROUP DESIRING TO ORGANIZE AND, FURTHER REALIZING THAT THE FRATERNITIES WILL BE INTERESTED IN OPERATING THEIR OWN FRATERNITY HOUSES, MR. LITCHFIELD MOVED THAT THE BOARD AUTHORIZE THE OPERATION OF FRATERNITY AND SORORITY HOUSES PROVIDING THE CONTROL, OPERATION, AND LOCATION IS UNDER COLLEGE JURISDICTION. THIS MOTION WAS SECONDED BY MR. WHITE AND WAS CARRIED UNANIMOUSLY.

Alpha Gamma Rho was actually 'activated' November 25, 1958, but not installed at Murray State until June 1968, nine years after petitioning the Board for housing. Their house is on State Route 121, not on campus. That same year, two more national social fraternities came to Murray State, Lambda Chi Alpha and Sigma Pi. Presently there are 13 active social fraternities on campus. Over the years there have been an additional 7 fraternities to start up but have since become inactive. The Tekes bring the total to eight.

Approaching fifty-nine years after the Board's unanimous decision to buy, build and rent, there is still not a fraternity row. There are several privately owned fraternity houses, however.

Our 'New' Chapter House...

Zeta Lambda Chapter occupied 101 N 16th Street until August 1993, when it moved to the new facility at **1511 W Main Street** at the corner of S 16th Street, extending to West Poplar Street. It sleeps twenty-five. Behind the main structure is a large patio and Carriage House for meetings and social events. From the front, across Main Street at 1510, you can see **Oakhurst**, the home of the President of Murray State.

Majestic Testament To Brotherhood

In October of 1990, at Homecoming, a plan for the construction of a new Chapter House was approved by the Alumni Association.

Ground-breaking was held May 9, 1992.

Construction was started December 1992 and completed by mid-August 1993.

Dedication of the new monumental Chapter House was held October 9, 1993.

At Homecoming 2014 the mortgage note was burned.

These are the current leaders of the Housing Corporation. From 1966 to the present we owe them all a big thank you for all they have done to keep Zeta Lambda solvent financially while staying focused on the fiscal commitments needed to pay all the bills all the time.

They have worked tirelessly to raise money, pay off the mortgages, pay the taxes, and keep the Chapter House in repair. They need our support.

The 'new' house is nearing its **25th Anniversary**.

From clearing a plot in 1966 to paying off two mortgages, Zeta Lambda has enjoyed a rich fraternity life with a house for over 51 years - 88 pledge classes (to date) accept it as just always present. It is a dream come true for Brothers who worked to get it... and keep it.

It is a tangible testament to the Tau tradition of true commitment to brotherhood, a value started by those who operated only out of a small fraternity room - or held meetings in a warehouse. They symbolize the spirit of the Chapter House's real foundation.

— CHAPTER ETERNAL —

Chapter Eternal is broken out three different ways. The first is an alphabetical listing, the traditional way we see it; easy to find someone in particular. The second chart is arranged in sequential order according to date of death that demonstrates how fortunate or unfortunate each pledge cycle is; some years are very, very good and others are a grim reminder of the fickle finger of fate. For the third presentation, Chapter Eternal is organized by Pledge Class, the way we tend to view our time at Murray State.

This Chapter Eternal list far exceeds the 'official' ATO roster typically published. It chronicles well over twice the number of recorded deaths than previously presented for Zeta Lambda alone. There are two principle reasons for this enormous difference.

The accounting begins with those who pledged our legacy organizations dating back to 1955, four years before the formation of Alpha Tau Omega at Murray State. It seems only fitting to include those in the directory as members of Best Brotherhood, Beta Tau Beta, and ATO Club who passed away because so many Brothers from the early era knew them; some even pledged the same organizations with/under some of them. Of the **164** names listed here, there are **134** who are 'official' ATO's, going from Charter Initiates through ANY Pledge Class to the present. Until this undertaking, a substantial number of the deaths of our Brothers who passed away were unknown, some for several decades.

Data collection of alumni Brothers has never been a forte at Zeta Lambda and the Chapter Eternal lists over the years reflect this deficiency. I found **nine** Brothers who are still quite alive whose names were previously listed for several years, discovered one person listed twice under different names, and was puzzled by many names who only appeared once and then were never included again. As near as I can calculate, there are **53** Brothers appearing here for the first time, over 30% of the final ATO total.

In the directory portion of this document I have included one internet link to verify every death under each individual's profile. Some lead to full obituaries while others may only show minimal Social Security information. I actually have at least two (or more) sources that I will supply Alpha Tau Omega National Headquarters to establish every deceased Brother as permanent members of Chapter Eternal.

Note that I have included more information here than is typically shown on Chapter Eternal listings. Under each person's profile you will also find their birthday and wife's name but no cause of death (although some obituaries mention this information). In following some links you will discover several Brothers' families who proudly announce Alpha Tau Omega in the summary of their lives.

If you have not seen a Chapter Eternal list in some time, I hope seeing all these names at once does not sadden you because we all knew at least some of them. Nearly every Pledge Class in this directory, with the exception of only two, has at least one Brother in Chapter Eternal.

Chapter Eternal

Average Age of Death =				60	

The average age of death at 60 years old seems awfully young. The median age of death is 71 years old and more in line with the national average of 76-78 years old but it is still a rather premature age. The fairly large numbers of those who passed away early in life really drive down the statistics. Part of the discrepancy, measured against normal values, is due to the (comparatively) low base of 164 deaths used to calculate the demographics. Every young death has a numerical impact on the bottom line figure. Of course, with all emotions aside, maybe every death can be considered premature.

Chapter Eternal

Progressive By Year

This listing takes a different slant on the Chapter Eternal list with interesting findings. Looking at the chronological list of deaths shows that the older Brothers, the vast majority of those in this directory, did not have extensive experience being touched by the loss of life from the ranks of Zeta Lambda in their years at Murray State or for many years thereafter.

On the other hand, it is now the older Brothers who are beginning to pass away in unprecedented numbers, a reflection of aging from the large proportion of initiates during the early years. Oddly, the list of ATO initiates only shows the average death age as 59 years (a year sooner)...it is NOT the legacy organizations that are driving down our numbers. In America, the average life expectancy for males is 76-78 years; a man reaching 65 years old today can expect to live, on average, until age 84. Use this list as a reminder to call someone you were very close to during your formative college years...before it is too late.

The first Zeta Lambda ATO to die was Roger Partington, over 10 years after the chapter was formed in 1959 and over 9 years after he pledged in the Spring of 1960. He was 29 years old. Fitting to the era, he died in Vietnam, the ONLY Brother to hold that unfortunate distinction of the at least 3 dozen (or more) from Zeta Lambda who honored us by serving there.

This means for the vast majority of Brothers in this directory there was no longstanding Chapter Eternal. Only 4 Brothers had passed away by the time the Alpha Alpha Pledge Class rolled around in the Fall of 1971.

In fact, after 30 years in existence, through the Spring of 1989 (Beta Mu Pledge Class), there were a total of 10 of our Brothers to enter the sacred halls, 6 deaths over a little more than a 17-year period since the second cycle of Brothers were initiated. Midway through the third cycle of ATO initiates and about halfway through our 59-year history, this figure represents only 0.011% of the total 918 initiates to that date. Put another way, this also shows that the remaining 128 of all our Brothers who have passed away (92.5%) did so after the Spring of 1989 (in the last 28 years); half of the list died in the last 10 years.

These figures should come as no surprise. As an institution geared mainly toward college-age young men, the bulk of alumni in those days prior to 1989 were in the age range of late 20's to late 40's. In the prime of our peak earning years, we were mainly mobile, moving to new jobs with a new young family of our own, and many of us who moved far away lost touch. As such, many deaths were unknown except to a small circle of Brothers and reporting to either the active Chapter or National was not a routine matter.

In retrospect, the last quarter century plus 3 years has not been kind to our ranks. My hope is this directory helps us reconnect with our old friends - not trying to relive those early days but to rekindle the bonds which drew us together and in to our amazing fraternity in the first place.

The next half cycle of pledges (11 years after 1989) saw 10% of the remaining Zeta Lambda Brothers on this list die and since the turn of the millennium a whopping 86% have passed away, over half of them in the last 6 years. Of those 53 previously unlisted Brothers, 44 of them have died within the last 17 years.

Granted these alarming death rates are a direct reflection of our aging alumni Brotherhood. Charter Initiates and the first full cycle of pledges (the next 12 years) account for over 30% of all Zeta Lambda Brothers initiated in its 58 year history. Birth years for those of us in this group still alive range from 1930 to 1952, making us all over 65 years old. Overall, the mortality rate in the fraternity is about 9%, better than the national average of around 11% for males. Indeed, our age group accounts for nearly 80% of all Zeta Lambda deaths at a rate of around 21% of the population, consistent with the national average for our age group.

There is no denying we are beginning to die off - something this chapter has not faced before. What we do with our deaths will be very telling going forward. I urge us all to keep each other informed by staying in touch with each other and the active chapter.

The point is: Why wait any longer to call someone whose friendship you cherished? Time is running out my Brothers. On average we only get about 27,000 to 29,000 days of life - and most of us have spent at least 24,000 of them already; don't waste another single day.

I do not relish the thought of having to enter the 166th name, especially a 136th Zeta Lambda Brother.

Speaking with Jerry McConnell only weeks before his death, he was awfully excited about receiving this directory and yearned to visit Murray again as soon as he was able. Murray is now his final resting place.

I missed Earl Hall and Skip Kramer by only a couple of months and had scheduled to make a call to Glenn Stangland the week he died. Augie Schiller was on my list to call on the day he died. Tempus fugit.

The only redeeming pleasure out of collecting Chapter Eternal data was finding out nine of the listings were incorrect. Trust me, once someone is listed as deceased, all records either become tightly sealed or discarded. I had to suck it up and make the calls, fearing I would find out the worst, when actually I was rewarded with good news. All nine were surprised to hear they had passed away.

Chapter Eternal

By Organization/Pledge Class

The arrangement in this listing may be the most poignant way to present Chapter Eternal. Naturally we recognize those in our own 'generation' during our time at Murray State and closely identify with those we knew so well. It follows the same format we typically see when the entire roster of living Brothers is presented. This chart's secondary information is the sequential date of death instead of alphabetical.

Full Name/(Given Name)	Pledge Class	Hometown	Death	Age	Residence At Death
Gene Irwin Barlow (Gene)	Best Brotherhood '55	Mayfield, KY	01/14/93	59	Mayfield, KY
Billy Joe Milner (Billy Joe)	Best Brotherhood '55	Clinton, KY	12/24/93	62	Bardwell, KY

Note there are two Pledge Classes in the first cycle that have been fortunate enough to escape having a Pledge Brother pass away.

In the PDF version of this document, clicking on the email addresses listed within profiles will open to a new message to send on your computer or cell phone (CONTROL + LEFT CLICK on mouse or tap on cell phone). Follow the same procedure for following the URL link (website addresses) to view information verifying a death. I made these intentionally small because they are typically very long and essentially unreadable gibberish.

Most all of the pictures were nicked from Murray State Shield displays available to anyone by typing in *Murray State's Digital Commons* into your web browser. Shield issues go very far back in the school's history. I found lots of information looking through them. The older years were of more benefit to me than the later ones. Social fraternities used to have individual pictures of brothers in the early days. By 1970 that practice ceased; only group photos were taken. Likewise, full names were not shown and in several issues even hometowns were omitted. You will note that for some Brothers the only picture available was blown up from one of the group shots. They are not the best quality but it was the best I could do. There are only eight people without a picture.

Also at this same site you can read minutes of the Board of Regents meetings. They are particularly interesting, however, there are hundreds of them. They do not capture internal discussions or attach copies of reports or presentations but take great care to specify their decisions. All expenditures and budgets are itemized, new hires and salaries listed, the approvals for degrees, new construction plans, as well as a few directives for further study...such as fraternity housing or Fraternity Row.

There are 554 profiles entered in this Brotherhood Directory. **I can attest that I have personally spoken with or repeatedly attempted to telephone everyone in this directory and taken great care to validate all of the 164 deaths listed in Chapter Eternal.**

Three Hopes And A Prayer

My original intent was to only make a simple directory. The history portion preceding it became a call of duty. I hope you learned some things in it and were amused in places along the way. Reading through the extensively revised Chapter Eternal, I hope you recall the good times you had with the Brothers you knew. As for the directory itself, I hope you use it.

I pray we all remember each other, to keep **Alpha Tau Omega, Zeta Lambda** cherished in our hearts because it allowed our lives to cross each others, and we can repledge ourselves to the true love and respect of our Brotherhood gift which forever binds us together.

— A FINAL WORD —

Stay In Touch...

There are lots of ways to keep up to date on current events at Zeta Lambda, several ways to contact both the local chapter and National Headquarters and easy avenues to keep us all updated on you.

Keep Connected:

As a valued alumni, there are two ways to find out about what is currently happening. They will help you become more active and stay involved, WITHOUT ANY CONSTANT BADGERING FOR DONATIONS (such as the national organization is bent to do), and you can easily stay in touch and feel more connected to those who mean so much to you.

<http://www.msuato.com/> **Alpha Tau Omega, Murray State Zeta Lambda Home Page** on your browser opens to **MSU Alpha Tau Omega**. This website should be your Go-To-First News Source. It is not a periodic newsletter but does routinely post short announcements relative to newsworthy events that keep you informed, provides notifications for upcoming chapter and noteworthy alumni activities or important meetings so you can join in, lists the current officers of the Housing Corporation and Board of Trustees, contains lots of permanent links to hundreds of pictures you can enjoy and you just might see some Brothers you know very well, presents an ongoing Chapter Eternal, opens to several old Bugle publications that were mailed out, and furnishes easy click-to links behind every news item for further information. If you would like to brush up on the history of Alpha Tau Omega there is a very thorough link that tells you way more than we ever learned as pledges.

This is not a closed members-only site and is not designed to be interactive so it does not capture nor record any visitor. Since we do not (yet) have every Brother's current email or cell phone information and the news naturally comes sporadically, announcements of new information postings are limited. Please check in here frequently to find out what is going on.

<https://www.facebook.com/search/top/?q=101%20n%2016th>. At least 75% (that's over 1,000 Brothers or their wives) have a **Facebook** account. I strongly urge you to seek out **101 N 16th** on Facebook and join the members-only group. You don't have to be a Facebook Junkie to stay abreast of, and FIND, lots of your old cronies. It is a closed group for all ATO's coming out of Murray State...meaning, any postings there are unseen by the general public. It is not a 'Chat Room' type of place but hot news is typically posted here first. For those unfamiliar, if you are 'Friends' on Facebook, you can send private messages through Messenger - it is very easy and certainly more convenient than emailing. There are a few other Facebook sites, not as active, but each has its following. One is listed as **Alpha Tau Omega - Zeta Lambda**, while another is **ATO Murray State**. At **Murray State Alumni and Friends** you will find posts of each year's Active Chapter recipients of the ATO Scholarship Endowment which is funded through the Murray State Foundation. If so inclined, there is on Facebook **Alpha Tau Omega National Fraternity** that allows you to peek in on the goings-on of all ATO Chapters or you can click

on **Alpha Tau Omega - America's Leadership Development Fraternity** from your browser and reach the national website <http://www.ato.org/> to find interesting information - some Zeta Lambda related as well as a host of other useful information.

"If you haven't tried it, you should, because it is fun and fun is good." ~ Dr. Seuss

Make Contact:

There is enough blame to go around for so many of us drifting away from our Brothers over time. Life goes on but college life does not. God, Family, Country, and Friends gradually supplants Fraternity in our everyday lives. Then, it seems suddenly, some few years down the road, we realize we have completely lost touch with nearly everyone we knew as a Brother in college.

Most of us did not know who to contact at Zeta Lambda or National Headquarters to update our personal contact information. Always scrimping for money to keep their heads above water the active chapter has no means, nor motivation, to find us all. The most active alumni over the years have been mostly a ragtag team comprised mainly of a handful of very dedicated volunteers who care but had no real avenue to find all of us once we became 'lost.' Therefore, as the alumni list grew larger over the years so did the list of 'unknowns.' Regretfully, the national organization has no viable blueprint to locate nor reconnect us.

We've drifted along on the backs of a few Brothers for years - decades! - to the point that the majority of Brothers are listed on only two 'official' rosters; both are dismally incomplete. Here (next page) is who, where, and how to help change this abysmal situation.

Direct mail costs a lot of money and requires repeated attempts to solicit information. The most cost-effective means of locating everyone is through email, cell phone or home phone (texting or personal call), and social media. The time to orchestrate, execute, collect, collate, and then record all the data is enormous. I know this from personal experience with this Brotherhood Directory.

I list myself last on the next page, not necessarily as the last resort, but because I **volunteer to become a permanent conduit** for any Brother seeking to find another. I will keep as accurate as I can the current contact information for every Zeta Lambda ATO from any era. I will not (cannot) share the entire list with everyone for obvious security reasons but selective portions of this roster will be shared with alumni groups seeking to organize reunions, launch special projects, or for general newsletter purposes (IF we ever do one again). The list I am presently beginning to assemble information that contains more than the present address, email, and primary telephone number.

At a MINIMUM we locally need your email and cell phone number. They are extremely difficult to find in public information available online. You do not even have to make a big deal of it. Send your name and email address from your cell phone to mine (a text) or send your name and cell number in an email to me. Simple. Other ways to update your contact info are on the next page.

 **JUST DO IT.**

No Growing Pains...

— EPILOGUE —

If you have not been through Murray or visited the campus in some time, you will see how impressively they have both grown right away. New businesses have sprouted up everywhere around town and the school now occupies over 253 acres. Striking improvements and logical expansions are noticeable far and wide and they have equally preserved their picturesque charm in the transition. Despite all its commercial advancements, the atmosphere of the area still remains very welcoming and friendly.

Dig a little deeper and you will find that Greek life at Murray State is wholly transformed; the fraternity is not the same as you left it...none of them are. Instead of slowly ruling fraternities out of existence, the university has chosen a smarter tactic. Living up to an age-old promise, they eventually created a kind of Fraternity Row of their own...without fraternities...deciding they can better squash them by imitation than intimidation. The only thing that remains unchanged at Zeta Lambda is the brotherhood.

Murray...

Murray has gone from a small sleepy village of 6,000 in 1950 to a medium size vibrant town of 19,000 in 2017. With a growth of over 31% since 1990, this makes it one of the fastest growing cities in Kentucky.

Part of the attraction for living in Murray rests on its low cost of living and low taxes. Since the mid-'50's, the principle economic driving force for producing this comfortable, pleasing affordability rests squarely on the sustained development of its lucrative bedrock, Murray State University. As a result, Murray residents enjoy easy living and many culturally enriching resources and opportunities that make living there more enticing. Two other major reasons for the city's steady rise in popularity may come as a surprise. One is tourism and the other, of all things, is retirement.

Recreational activities of the surrounding area are one of the city's leading strengths. This is not exactly new news to us experienced 'insiders' but the rest of America is beginning to discover it. Over 300 miles of idyllic natural shore line within a stone's throw now brings in many permanent retirees and thousands of visiting families annually. Offering scores of options for leisurely pursuits thanks to the enormous **Land Between the Lakes** recreational area just 15 miles away, it is nationally famous for supplying unlimited boating, fishing, swimming, hiking, picnicking, camping, wildlife and plenty of untouched beautiful wooded hills providing a peaceful scenic background. The area has matured well and Murray has done a great job of leveraging its proximity to this marvelous resort spot and delivering the social and business amenities to fully enjoy a rewarding life for retirees while providing ample jobs for young families with children.

In fact, Murray is now on the map as the best place to spend one's golden years. Beating out usual well-known places in Florida, California and Arizona, the burgeoning Murray-Kentucky Lake region recently led in the **Rand McNally's Retirement Places Rated** and the **Friendliest Small Town in America** as well as one of the top 100 best communities for young people. **Patti's 1880's Settlement** in Grand Rivers was voted the number one **Restaurant for Tourism in the state of Kentucky**, received the U.S. Chamber of Commerce's **Blue Chip Award**, won a **Pork Producers Award**, and was voted the **Best Small Town Restaurant in the Southeast United States** in the Southern Living Magazine's Readers Choice Awards.

Despite its sizable growth, Murray still manages to retain its hometown feel. People living and working there are genuinely friendly. Even though it looks vastly different, it feels the same. Progress for Murray has elevated

it away from its roots of agriculture and coal mining to a place bursting with business, culture and fun. Plus, the university keeps the area youthful. And in case you have not heard, Murray is now 'wet.' Cheers!

Located fairly close to Interstate 24, it is an hour's drive from Paducah and 2 hours from Nashville. No matter which direction you arrive coming in to Murray you will see its growth and changes. And that is BEFORE you soak in the tremendous overhaul of the Murray State campus.

Murray State...

If it has been a while since you stepped foot on campus, you may need a map. Murray State is now sprawled out with buildings everywhere that used to be open spaces. It is still a pretty place and academically as sound as ever, known as 'Kentucky's Public Ivy University' with a ranking of 32nd in the 2018 edition of Best Colleges and Regional Universities in the South. Over the past 26 years Murray State has perennially ranked as one of the top schools in the south by U.S. News & World Report. As a founding member in 1948, Murray State remains in the Ohio Valley Conference and basketball is still first-rate; the Racers have one of the winningest programs in NCAA Division I history.

The student population has swelled like the town. In 1945 the student body was 565. By 1968 it was over 7,000, larger than the city was less than 20 years before. Today it is 11,000, not much smaller than the city of Murray in 1968. Combined with the local residents base, businesses support a population of 30,000 plus the influx of tourists and summer nesters.

According to the latest College Board accounting, the average cost of tuition and fees for the 2017-18 school year is **\$34,740** at private colleges, **\$9,970** for state residents at public colleges, and **\$25,620** for out-of-state residents. Murray State manages to still be a bargain but the gap is less than it used to be. Facing a minimum of \$75,000 to \$130,000 for a 4-year bachelors degree about 98% of Murray State students receive some form of grant aid, 35% a Pell Grant.

A family with two children of college age may find themselves strapped. Like so many of us were able to do, it is now impossible to earn your way through college. While circumstances have not reverted back to only the rich and privileged being able to go, the enormous cost to attend has substantially changed the complexion of today's students. Because of the cost burden, they are more focused on studies and less focused on the social outlets.

Any other costly undertaking, such as pledging a fraternity, is scrutinized closely. There must be additional benefits not required when we pledged; with us it was a 'free' choice decision we elected to do. In our time, parents were skeptical of the time a fraternity would take away from studies. Now the pocketbook is as big a commitment factor. And they have other competitive options.

At Murray State, every student is now mandated to enroll in one of eight residential colleges, different distinct divisions of the university, centered around each individual (mostly) co-ed dorm. The system ends up forming incredibly tight-knit community-based groups who eat together, reside in the same place, attend many classes together on site and share common experiences with social functions, group activities, and have close-at-hand academic guidance. In some respects, the university has stolen the fraternity approach of augmenting college life with one of its own - if ya can't beat 'em, join 'em. **It IS equivalent to a Fraternity Row.**

That fraternities now compete against the university residential system has caused a major shift in Greek life; several fraternities did not survive. Instead of successful semiannual fraternity Rushes, fraternities have been given the bum's rush by the university. Simultaneously, Greek life on campus as far as campus media sources

and publicity is no longer existent. The Shield now reads like a propaganda magazine with social fraternities and sororities rarely getting a mention. Apparently the administration and Board of Regents do not see any benefit of them in attracting new high school prospects.

In a way, they beat us at our own game. Starting ten years ago, it only took the university about 50 years to finally figure out how to outsmart national fraternity encroachment and throttle their growth.

Fraternity Life...

It is no secret that fraternity recruitment is down across the board at colleges all across the nation. Our chapter, too, has suffered some lean and hungry years, once almost closing up shop. None of us want to see that happen. Not all of it can be blamed on prejudiced administrations or biased governing boards. Part of the reason is self-inflicted, suicide by bad press. Every incident of brutal hazing, death by hazing, rape and sexual assault, or wild party is picked up by the national media. Panty raids, philanthropic causes, and high GPA's rarely see headlines; very difficult to change a national perception hyped up over decades.

ATO banned hazing in 1950, replacing Hell Week with Help Week. Over the decades the national organization has attempted to support local chapters, not directly, but with programs designed to counter the stereotype of fraternities. They strive to be a positive leader and offer many worthwhile leadership training courses, support materials, scholarships, and several educational programs. Overall, they have grown as the schools have, and indeed as America has grown, but the fact remains that pledging a fraternity nowadays is more frowned on by college administrators than it was when we were founded. And going to college takes a bigger chunk of money proportionally than it used to cost.

The national ATO organization functions in much the same fashion as a corporation and local chapters are its franchises. They are pretty much hands off in the day-to-day operation nor do they help solve or resolve local issues. However, they are dogmatic about adhering to the rules and pledging allegiance to the checkbook.

Unlike the old days when you paid your monthly dues to the Keeper of the Exchequer or went 'inactive' for a while until you were able to get caught up, the national organization has put financial handcuffs on chapters. Even though they aggressively 'sell' Lifetime Memberships, once a pledge goes active they become lifelong ATO initiates. As such, the local chapter is on the hook financially to pay for each 'active' member for the duration of what SHOULD be the entire college time. If a Brother drops out of school for any particular reason, 'valid' or not, the obligation of the chapter to pay for him does not go away.

In other words, right at the time when it is more difficult to attract recruits into the fraternity world because of the competition with the residential college system, sky-rocketing tuitions, and bad press, the active chapter must find potential pledges who not only have the grades, they must be seen as students who are likely to graduate. That is a lot to put on young undergraduates to determine during a Smoker.

Membership status relating to money issues, to date, are not adequately addressed. Most of us older guys are not aware of these not-so-subtle changes. The financial burden today goes far beyond the responsibility of just meeting dance and party budgets, house payments, and hosting Homecoming.

The most expensive item the active chapter can pay for dearly is the high cost of alumni doing nothing. Don't go 'inactive' as one; they can't afford it.
